The postoffice address is shown in **Display Type**, the name of county in which it is located immediately follows, and then the population of the place. The names of Physicians appear under the postoffice name, the first number (the key to which will be found on pages 101 to 120) indicates the college of graduation, and the last number the year in which diploma was granted.

The postoffice address is shown in Display Type, the name of county in which it is located immediately follows, and then the population of the place. The names of Physicians appear under the postoffice name, the first number (the key to which will be found on pages 101 to 120) indicates the college of graduation, and the last number the year in which diploma was granted.

RHODE ISLAND.

CAPITAL, PROVIDENCE.

Population of State, 345,506.

(Census of 1890.)

Males	168,025	Native	239,201
Females	177,481	Foreign	106,305
White	337,859	Chinese	74
Colored	7,393	Indians	180

Number of Physicians, 543.

The State of Rhode Island extends from 41 degrees 18 minutes to 42 degrees 5 minutes north latitude, and from 71 degrees 8 minutes to 71 degrees 53 minutes west longitude, and is bounded on the north and east by Massachusetts, on the south by the Atlantic ocean, and on the west by Connecticut. It is the smallest State in the Union, comprising an area of 1,306 square miles or 835,840 acres.

The principal rivers are the Pawtucket, the Pawcatuck and Pawtuxet, all of which furnish excellent water power.

The climate, like that of all the New England States, is marked by great extremes, the winters being very cold and the summers correspondingly hot. The mean annual temperature at Providence is 47.91, and at Newport 49.39, and the average annual rainfall varies from 40 inches in the eastern part to 44 in the west.

The following table shows increase in population during 70 years:

1820....	83,015	1860.....	174,620
1830..	97,190	1870.....	217,353
1840..	108,830	1880..	276,531
1850.....	147,545	1890.....	345,506

Rate of Mortality in Rhode Island, as computed from the U. S. Census of 1890.

Population.	Deaths in 1890	Rate per 1,000	White	Colored	Rate per 1,000, White.	Rate per 1,000, Colored.
345,506	7,559	21.88	7,335	224	21.71	29.29

The total number of deaths from consumption during 1890 was 921, which was at the rate of 2.67 per 1,000 of population, or 121.84 per 1,000 of total deaths.

MEDICAL LAWS OF RHODE ISLAND.

(Passed May 16, 1895.)

It is enacted by the General Assembly as follows:

Section 1. It shall be the duty of each town and city clerk to purchase a book of suitable size, to be known as the "Medical Register" of each city or town and to set apart one full page for the registration of each physician; and when any physicians shall die or remove from the city or town, said clerk shall make a note of the same at the bottom of the page, and shall on the first day of January in each year, transmit to the office of the State Board of Health a duly certified list of the physicians of said city or town registered under this law, together with such other information as is hereinafter required, and perform such other duties as are required by this law; and such clerk shall receive the sum of fifty cents from each physician so registered, which shall be his full compensation for all the duties required under this law.

Sec. 2. It shall be unlawful for any person to practice medicine or surgery in any of its branches, within the limits of this State, who has not exhibited and registered in the city or town clerk's office of the city or town in which he or she resides, his or her authority for so practicing medicine as herein prescribed, together with his or her age, address, place of birth and the school or system of medicine to which he or she proposes to belong; and the person so registering shall subscribe and verify by oath, before such clerk, an affidavit containing such facts, which, if wilfully false, shall subject the affiant to conviction and punishment for perjury.

Sec. 3. Authority to practice medicine under this law shall be a certificate from the State Board of Health, and said board shall upon application issue a certificate to any reputable physician who is practicing, or who desires to begin the practice of medicine or surgery in this State, who possesses any of the following qualifications:

1. A diploma from a reputable and legally chartered medical college, endorsed as such by the State Board of Health.

2. Satisfactory evidence from the person claiming the same that such person was reputable and honorably engaged in the practice of medicine or surgery in this State prior to January 1, 1892. Any person not qualified as hereinbefore provided, before practicing medicine or surgery in this State shall present himself before said State Board of Health and submit himself to such examination as said board may require. Said board shall examine any person presenting himself, and if the examination is satisfactory shall issue its certificate as hereinbefore provided. Provided, any person so presenting himself shall pay to the board the sum of ten dollars for each examination and said fee shall in no case be returned and shall be applied to pay the expenses of the Board of Health. Applicants may present their credentials by mail or by proxy, and the board shall issue its certificates to such applicants as are entitled thereto as though the applicant were present. All the certificates shall be signed by the president and secretary, and attested by seal of the board, and not more than two dollars shall be charged for any certificate.

Sec. 4. Nothing in this law shall be so construed as to authorize any itinerant doctor to register or to practice medicine in any part of this State.

Sec. 5. The State Board of Health may refuse to issue the certificate provided for in Sec. 3 of this article to any individual guilty of grossly unprofessional conduct of a character likely to deceive or defraud the public, and it may after due notice and hearing revoke such certificates for like cause. In all cases of refusal or revocation, the applicant may appeal to the appellate division of the Supreme Court, who may affirm or overrule the decision of the board, and its decision shall be final.

Sec. 6. Nothing in this law shall be so construed as to discriminate

against any particular school or system of medicine, or to prohibit women from practicing midwifery, or to prohibit gratuitous services in case of emergency; nor shall this law apply to commissioned surgeons of the United States army, navy or marine hospital service, or to legally qualified physicians of another State, called to see a particular case, but who do not open an office or appoint any place in this State where they may meet patients or receive calls.

Sec. 7. It shall be the duty of the State Board of Health to bring to the attention of the courts any violation of the provisions of the law within their respective jurisdictions.

Sec. 8. Any person living in this State, or any person coming into this State who shall practice medicine or surgery, or attempt to practice medicine or surgery in any of its branches, or who shall perform or attempt to perform any surgical operation for or upon any person within the limits of this State for reward or compensation, in violation of the provisions of this law, shall, upon conviction thereof, be fined fifty dollars and upon each and every subsequent conviction shall be fined one hundred dollars and imprisoned thirty days, or either or both, in the discretion of the court; and in no case, where any provision of this law has been violated, shall the person so violating be entitled to receive compensation for services rendered. To open an office for such purpose, or to announce to the public in any other way a readiness to practice medicine or surgery in this State, shall be to engage in the practice of medicine within the meaning of this law.

Sec. 9. This act shall take effect sixty days after its passage.

SALICYLATE SODIUM. — TRUE.

The Wm. S. Merrell Chemical Co.,
Cincinnati, Sole Manufacturers.

IN POWDER and TABLET FORM.

The distressing gastric disturbance so characteristic of the commercial salicylic acid and its sodium salt will be almost entirely avoided by the use of the preparation in this form, while its convenience will be appreciated by physician and patient alike. Printed matter on application.

South Carolina, one of the 13 original States, is bounded on the north by North Carolina, on the southwest by the Savannah river, which separates it from Georgia, and on the southeast by the Atlantic. It extends from 32 degrees to 35 degrees north latitude and from 78 degrees 35 minutes to 83 degrees 30 minutes west longitude, is triangular in shape and comprises an area of 34,000 square miles, or 21,760,000 acres. The principal rivers of the State are the Santee river, formed by the confluence of the Wateree and Congaree rivers; the Waccamaw river, Cooper river, Ashley river, Savannah river, etc., etc.

The climate is warm, but is tempered in the east by the vicinity of the ocean, and in the west by the elevation. The mean annual temperature ranges from 60 degrees in the north to 67 degrees in the south, and the annual average rainfall is about 45 inches.

The following table shows increase in population during 70 years:

1820.....	502,741	1860.....	703,708
1830.....	581,185	1870... ..	705,606
1840.....	594,398	1880.. ..	995,577
1850....	668,507	1890.. ..	1,151,149

There are several mineral springs in the State.

There are two medical colleges in the State, the Medical College of the State of South Carolina, at Charleston, and the Charleston Medical School, Charleston.

Rate of Mortality in South Carolina, as computed from the U. S. Census of 1890.

Population.	Deaths in 1890.	Rate per 1000.	White.	Colored.	Rate per 1,000 White.	Rate per 1,000 Colored.
1,151,149	15,495	13.46	5,047	10,448	10.92	15.16

Total number of deaths from consumption during 1890 was 2,112, which was at the rate of 1.83 per 1,000 of population, or 136.30 per 1,000 of total deaths.

MEDICAL LAWS OF SOUTH CAROLINA

An Act to Repeal an Act Entitled "An Act to Provide for the Appointment of County Boards of Physicians and Surgeons to Examine the Diplomas of Physicians and Surgeons in This State," Approved December 24, 1890, and to Establish in Lieu of Said Boards a State Examining Board, and to Define the Duties and Powers Thereof.

Section 1. Be it enacted by the Senate and House of Representatives of the State of South Carolina, now met and sitting in General Assembly, and by the authority of the same, That on and after the passage of this act there shall be established a State Board of Medical Examiners composed of seven reputable physicians or surgeons, one from each Congressional District, to be appointed by the Governor, whose term of office shall be for a period of two years and until their successors in office shall have been appointed, and any vacancy in said Board of Examiners, by death, resignation or otherwise, shall be filled in the same manner. A majority of said board shall constitute a quorum for the transaction of business: Provided, That the members thereof first appointed under this act shall be divided into two classes, each class to consist of the first three and second two members. The first class shall hold office under said appointment for the period of one (1) year, the second class for two (2) years, from the date of their appointment.

Sec. 2. That said Board of Medical Examiners shall meet at Columbia, South Carolina, on the fourth Tuesday in April of each year, and at their first meeting organize by the election of a chairman and a secretary, who shall also be treasurer; and said board shall have power to call extra meetings when necessary. It shall be the duty of said board when organized to examine all applicants for examination who hold diplomas from any medical colleges or schools, and to pass upon their qualifications and fitness to practice medicine in this State, and to give to each successful applicant a certificate to that effect upon the payment of five dollars to the treasurer of said board. Said board shall keep a record of all the proceedings thereof, and also a record or register of all applicants for a license, together with his or her age, time spent in the study of medicine, and the name and locations of all institutions granting such applicants' degrees or certificates of lectures in

medicine or surgery. Said books and register shall be prima facie evidence of all the matters therein recorded.

Sec. 3. That such certificate of qualification shall entitle the holder or holders therof, respectively, to be registered as a lawful practicing physician by the clerk of court of the county in which he, she or they may reside, upon payment to said clerk of court a fee of twenty-five cents for each registration.

Sec. 4. That it shall be unlawful for any person or persons to practice medicine in this State who has failed to comply with the provisions as above recited, and any one violating the provisions of this act shall be deemed guilty of a misdemeanor, and for each offense, upon conviction by any court of competent jurisdiction, shall be fined in any sum not exceeding three hundred dollars, or imprisonment in the county jail for any period not longer than three months, or both, at the discretion of the court. One-half of said fine to go to the informant and the other half to the State: Provided, That dentists and midwives shall not be subject to the provisions of this act.

Sec. 5. That the members of said Examining Board shall receive for their services the same per diem and mileage as is paid to the members of the General Assembly for each day engaged: Provided, That the receipts from applicants for examination shall be sufficient to meet such expenses; and if there should be any surplus from paying said expenses that the same be paid to the State Board of Health for further disbursement.

Sec. 6. That nothing herein contained shall in any way affect or apply to physicians and surgeons who have already registered in accordance with the law now in force.

Sec. 7. That upon the refusal of said board to grant a license to any applicant an appeal may be had to the Governor, who may order a re-examination of the applicant to be held in the presence of the dean of the faculty of any medical college in this State and a committee composed of six practicing physicians.

Sec. 8. Nothing in this act shall apply to commissioned medical officers of the United States army or navy or the United States marine hospital service, nor shall it include physicians or surgeons residing in other States and called in consultation in special cases with physicians or surgeons residing in this State.

Sec. 9. That all acts and part of acts inconsistent herewith are hereby repealed.

Approved January 4th, A. D. 1894.

The postoffice address is shown in Display Type, the name of county in which it is located immediately follows, and then the population of the place. The names of Physicians appear under the postoffice name, the first number (the key to which will be found on pages 101 to 120) indicates the college of graduation, and the last number the year in which diploma was granted.

South Dakota was admitted to the Union November 3, 1889. It extends from 43 degrees to 46 degrees N. latitude, and from 96 degrees 22 minutes 30 seconds to 104 degrees W. longitude, and is bounded on the north by North Dakota, on the west by Montana and Wyoming, on the east by Minnesota and Iowa, and on the south by Nebraska. It has an average length of 206 miles, with an average breadth of 375 miles, and comprises an area of 77,650 square miles, or 49,696,000 acres. The principal rivers are the Missouri and its tributaries, and the Dakota, the Vermillion and the Big Sioux. The temperature varies during the year from 34 degrees below zero to 103 degrees Fahrenheit. The climate is more mild and genial than the latitude would seem to warrant, and the winters, though cold, are dry, and the air is bracing and invigorating. The average rainfall is about 27 inches, and as it mostly occurs during the warm season, it is most beneficial to vegetation. The atmosphere is dry and clear, and, owing to the elevation, malarial diseases are almost unknown, whilst pulmonary complaints are comparatively rare. Spring opens earlier than in Eastern States in the same latitude.

Rate of Mortality in South Dakota as computed from U. S. Census of 1890.

Population.	Deaths in 1890.	Rate per 1,000.	White.	Colored.	Rate per 1,000 White.	Rate per 1,000 Colored.
328,808	2,705	8.22	2,694	11	8.23	7.25

Total number of deaths from consumption during 1890 was 208, which was at the rate of .63 per 1,000 of population, or 76.89 per 1,000 of total deaths.

MEDICAL LAWS OF SOUTH DAKOTA.

An Act to Regulate the Practice of Medicine in the State of South Dakota, and to Constitute a Board of Medical Examiners and Provide Penalties for a Failure to Comply With the Terms Thereof.

Be it enacted, etc.:

Section 1. It shall be unlawful for any physician or any other person to practice medicine, surgery or obstetrics in any of their departments in this State, unless such person shall have received a license to practice medicine from the Board of Health, as hereinafter provided, and shall have had the same recorded in the office of the Register of Deeds in the county where such physician or person shall reside.

Sec. 2. Nothing in this act shall affect those now in the lawful practice of medicine, surgery or obstetrics in this State.

Sec. 3. Nothing in this act shall be construed to prohibit students from prescribing under the supervision of perceptors or to prohibit gratuitous services in case of emergency, nor shall this act apply to commissioned surgeons in the United States army and navy.

Sec. 4. Any person who shall violate any of the provisions of this act, or any person who shall practice medicine without having obtained a license as herein provided, shall be guilty of a misdemeanor and shall, upon conviction thereof, be punished by a fine of not less than twenty-five dollars nor more than one hundred dollars or imprisonment in the county jail for a term not exceeding thirty days or by both such fine and imprisonment, in the discretion of the court.

Sec. 5. The Board of Health of this State is hereby constituted a Board of Public Examiners ex-officio for the purpose of examining and licensing physicians to practice medicine in this State, and any person who is a graduate of a lawful medical college who has attended three full courses of medical lectures of six months each, no two full courses within the same year, and who is of good moral character, and is not an habitual drunkard, shall, upon proof of such facts to the superintendent of the State Board of Health as said Board shall require, and on the payment of a license fee of five dollars, which shall be applied as a part of the superintendent's salary, receive from said superintendent of the State Board of Health a license certifying the applicant to be a practicing physician and qualified for such as prescribed by this section; which license shall be recorded in the office of the Register of Deeds in the county where such practicing physician resides. Provided, That the requirements of the three courses of lectures shall not apply to those who had graduated prior to the passage of this act.

Sec. 6. The State Board of Health shall, upon complaint made to it on oath by one responsible person, have power to cancel any license that may have been issued to any applicant for the practice of medicine, when such license was fraudulently obtained or when the person to whom such license was issued is an habitual drunkard, or is guilty of immoral practices or gross unprofessional conduct. Provided, That such license shall not be cancelled except after a hearing before such Board of Health at which a majority of such board shall be present, and of which the person holding the license to

be cancelled shall have had not less than ten days' notice, and only upon due proof of the facts stated in the complaint, and, Provided further, That an appeal may be taken to the Circuit Court of the county in which the person whose license is cancelled lives, by any person aggrieved thereby, in the same manner as is now provided by law in case of appeal from the decision of County Commissioners.

Sec. 7. It shall be the duty of the State's Attorney to prosecute all violations of this act within his county.

Sec. 8. All acts and parts of acts in conflict with this act are hereby repealed.

Sec. 9. (Emergency.) There being no adequate law on this subject, an emergency is hereby declared to exist, and this act shall take effect and be in force from and after its passage and approval.

Approved February 15, 1893.

The State of Tennessee extends from 35 degrees to 36 degrees 41 minutes north latitude, and from 81 degrees 45 minutes to 90 degrees 14 minutes west longitude, and is bounded on the north by Kentucky and Virginia, on the south by Georgia, Alabama and Mississippi, on the east by North Carolina, and on the west by Arkansas and Missouri. It comprises an area of 45,600 square miles, or 29,184,000 acres. The principal rivers of the State are the Obion, Forked Deer, Hatchee and Loosahatchee in the north, the Cumberland, Tennessee, Holston, Sequatchee, etc. The climate is mild, equable and salubrious, the mean annual temperature as observed at Nashville being 58.32, that of the summer 76.32, and of the winter 39.67. The average annual rainfall is about 45 inches.

The following table shows increase in population during 70 years:

1820.....	422,771	1860.. ..	1,109,801

MEDICAL LAWS OF TENNESSEE

An Act to Regulate the Practice of Medicine and Surgery in the State of Tennessee:

Section 1. Be it enacted by the General Assembly of the State of Tennessee, That no person shall practice medicine in any of its departments, except dentistry, within this State, unless such person possess all the qualifications required by this act. If a graduate in medicine, he shall present his diploma to the State Board of Medical Examiners for verification as to its genuineness. If such a diploma is found genuine, and from a legally chartered allopathic, homoeopathic or eclectic medical college in good standing with the school of medicine in which said college is classed, of which the State Board of Medical Examiners shall be the judge, and if the person named therein be the person claiming and presenting the same, the State Board of Medical Examiners shall issue a certificate to that effect, signed by all the members thereof, and such certificate shall be conclusive as to the right of the lawful holder of the same to practice medicine in this State.

2. Be it further enacted, That all persons who shall be in actual practice of medicine or surgery in the State at the time of the passage of this act shall, within six months after this act takes effect, be required to make satisfactory proof of this fact to the county court clerk of the county in which he resides, when said county court clerk shall issue a certificate in each case, in accordance with the facts, and such certificate shall entitle the lawful holder thereof to all the privileges contemplated in this act. A certified copy of this certificate shall be forwarded to the State Board of Medical Examiners.

3. Be it further enacted, That any person wishing to enter upon the practice of medicine in any of its branches, except dentistry, after the passage of this act, shall present to the Board of Medical Examiners a diploma from some medical college in good standing, and said board shall recognize any college that is recognized by the National Medical Association, or shall present himself before the board for examination upon the following branches, viz.: anatomy, physiology, chemistry, pathology, surgery, obstetrics and therapeutics. If the diploma be found genuine, or if the applicant for examination shall be found worthy and competent, then said board shall issue a certificate in each case in accordance with the facts, and such certificate shall entitle the lawful holder thereof to all the privileges of this act.

4. Be it further enacted, That immediately upon the passage of this act the Governor shall appoint six graduate physicians, two from each grand division of the State, as a State Board of Medical Examiners, whose duty it shall be to examine into the qualifications of all applicants for license to practice medicine or surgery, in accordance with the foregoing sections of this act; provided that the three schools of medicine, viz.: Allopath, Homoeopath and Eclectic shall be represented on said board of examiners. Not less than five shall constitute a quorum and a majority of those present shall be necessary to reject any application, but such rejection shall not bar the applicant against a re-examination after the lapse of three months; provided that the members of the board representing each school of medicine shall have the right to examine all applicants of that school, and the board shall issue the certificate of qualification to applicants who are recommended by the members of the board who belong to said school after such examination.

5. Be it further enacted, That to prevent delay and inconveniences two members of the board may grant a temporary license to any applicant, and make report thereof to the board at the next regular meeting; such temporary license shall not continue in force longer than until the next regular meeting of the board, and such temporary license shall in no case be granted within six months after the applicant has been refused a license by the board.

6. Be it further enacted, That the first Board of Medical Examiners shall meet and organize thirty days from the date of their appointment, and shall name for the terms of one, two, three, four, five and six years respectively, deciding by lot or agreement among themselves as to their respective terms of service; at the expiration of the above terms each member of the board shall be appointed for six years; all vacancies occurring in the board by death or resignation shall be filled by the board itself for the remainder of such term or terms; the members of said board shall not be members of the State Board of Health, nor any medical faculty.

7. Be it further enacted, That the regular meetings of the board shall be once each year, at such time and place as the board may decide, but the president of the board may call a special meeting whenever it is demanded by public necessity, the call to be issued by the secretary and signed by the president.

8. Be it further enacted, That the Board of Medical Examiners are authorized to elect such officers and to form such by-laws as may be necessary for the efficient operations of the board.

9. Be it further enacted, That every person holding a certificate from the State Board of Medical Examiners or the county court clerk, shall have it recorded in the office of the county court clerk in which he resides and the

date of record shall be endorsed thereon. Until such record is made the holder of such certificate shall not exercise any of the rights or privileges therein conferred to practice medicine. Any person removing from one county to another to practice medicine shall record in like manner the certificate in the county to which he removes, and the holder of the certificate shall pay the county clerk the usual record fee for so doing. Practitioners in one county may go from one county to another on professional business without being required to register if they have done so in the county in which they reside.

10. Be it further enacted, That the county clerk shall keep in a book provided for the purpose a complete list of the certificates recorded by him, with the date of issue of each certificate and date of record. If the certificate be based on a diploma he shall record the name of the medical institution conferring it and the date when conferred. The register of the county clerk shall be open to public inspection during business hours.

11. Be it further enacted, That the Board of Examiners shall keep a record of its proceedings in a book for that purpose, which shall be open for inspection, and shall record the name of each applicant, the time of granting a license with the name of the members of the board present.

12. Be it further enacted, That the members of said board shall receive as a compensation for their services ten dollars (\$10) per day, during their sessions, and in addition thereto, their hotel and traveling expenses by the most direct route to and from their respective places of residence, to be paid out of any moneys in the treasury of the board, upon a certificate of the president and secretary. The board is empowered to demand a fee of one dollar (\$1) for the issuing of each certificate. The fee for the examination of non-graduates shall be ten dollars (\$10). If the applicant fails to pass a satisfactory examination, and no certificate or license is issued to him, five dollars (\$5) only of his fee is to be retained. The fee for a certificate of temporary license shall be one dollar (\$1), to be paid into the treasury of the board, said fee to be accredited to the applicant when he applies to the board for permanent license.

13. Be it further enacted, That any itinerant vendor of any drug, nostrum, ointment or application of any kind, intended for the treatment of disease or injury, or who may, by writing, printing or other method, profess to cure or treat diseases or deformity by any drug, nostrum, manipulation or other expedient, in this State, shall if found guilty, be fined in any sum not less than one hundred dollars (\$100) and not exceeding four hundred dollars (\$400) for each offense, to be recovered in action of debt before any court of competent jurisdiction.

14. Be it further enacted, That any person who shall practice medicine or surgery in this State without the certificate issued by the Board of Examiners, or county court clerk, as provided in Sec. 2 in compliance with the provisions of this act, shall, for each and every instance of such practice, forfeit and pay to the people of the State of Tennessee, for the use of said Board of Examiners, the sum of twenty-five (\$25) dollars for the first offense, and two hundred (\$200) dollars for each subsequent offense, the sum to be recovered in an action of debt before any court of competent jurisdiction. Any person filing or attempting to file, as his own, the diploma or certificate of another, or a forged affidavit of identification, shall be guilty of felony, and upon conviction shall be subject to such punishment as is made and provided by the statute of the State for the crime of forgery. But this act is not to be construed so as to prohibit the right of appeal, and when an appeal is prayed in behalf of the people, no appeal bond shall be required or filed, whether the appeal be from a justice of the peace or from a higher court; but it shall be sufficient, in behalf of the people of the State of Tennessee, for the use of the Board of Examiners, to pray appeal, and thereupon appeal may be had without bond or security. Nothing in this act shall be construed to apply to women who pursue the avocation of midwife.

15. Be it further enacted, That the secretary and treasurer of the Board of Examiners shall give bond with good security in amount sufficient to cover all moneys coming into his hands, for the safe keeping of the same.

16. Be it further enacted, That the said board shall have power to revoke any license or certificate issued by them, when, upon satisfactory proof, it shall appear that the physician thus licensed has been guilty of immoral or unprofessional conduct.

17. Be it further enacted, That it shall not be lawful for the State Board of Examiners, or any member thereof in any manner whatever, or for any purpose to charge or obligate the State of Tennessee for the payment of any money; and the said State board shall look alone to the revenue derived from the operations of this act for the compensation designated in Sec. 12 of this act, and if said revenue is not sufficient to pay each member in full, as per Sec. 12, then the amount thus received shall be pro-rated between the members. But if there shall be a greater revenue derived than shall be sufficient to pay the members, as provided in Sec. 12, such surplus shall be paid

to the Controller of the State, who shall receipt the board for the amount received, and shall account for said money as other State revenue.

18. Be it further enacted, That this act take effect sixty (60) days after its passage, and all acts or parts of acts, in conflict with this act, be and the same are hereby repealed.

TEXAS.

CAPITAL, AUSTIN.

Population of State, 2,235,523.

(Census of 1890.)

Males	1,172,553	Native	2,082,567
Females	1,062,970	Foreign	152,956
White	1,745,935	Chinese	713
Colored	488,171	Indians	704

Number of Physicians, 4,617.

Texas, the largest State in the Union, extends from 25 degrees 51 minutes to 36 degrees 30 minutes north latitude, and from 93 degrees 31 minutes to 106 degrees 43 minutes west longitude, and is bounded on the north by the Indian Territory, on the southeast by the Gulf of Mexico, on the southwest by Mexico, on the east by Arkansas and Louisiana, and on the west by New Mexico. It comprises an area of 274,356 square miles, or 175,587,840 acres.

The climate is warm but equable and salubrious, and the mean annual temperature, as observed at Austin, is 66.72 degrees, and at Galveston 69.38 degrees. In the extreme south it is about 75 degrees, and in the north it falls to 56 degrees. The average annual rainfall is about 41 inches.

The following table shows increase in population during 40 years:

1850	212,593	1889	1,591,749
1860	604,215	1890	2,235,523
1870	818,579		

There are several mineral springs in the State.

There are two medical colleges in the State, the Medical Department of the University of Texas, at Galveston, and the Medical Department of Fort Worth University, at Fort Worth.

Rate of Mortality in Texas, as computed from the U. S. Census of 1890.

Population.	Deaths in 1890	Rate per 1,000	White	Colored	Rate per 1,000, White.	Rate per 1,000, Colored.
2,235,523	26,478	11.84	21,288	5,190	12.14	10.60

Total number of deaths from consumption during 1890 was 2,059, which was at the rate of .92 per 1,000 of population, or 77.93 per 1,000 of total deaths.

For List of Medical Colleges, see page 101.

MEDICAL LAWS OF TEXAS.

AN ACT TO REGULATE THE PRACTICE OF MEDICINE. REVISED STATUTES, 1879.

Article 3625. The presiding judges of the district courts of the several judicial districts shall, as soon as practicable, severally appoint a board of medical examiners for their respective districts, which appointment shall be in writing and signed by the judge making the same, and delivered to the person appointed.

3626. Said board of medical examiners shall be composed of not less than three practicing physicians of known ability, and who are graduates of some medical college recognized by the American Medical Association, and who are residents of the district for which they are appointed.

3627. The appointment of a member of the board of medical examiners shall continue for two years from the date of such appointment.

3628. The board shall, immediately after appointment, select one of their number president, and one secretary, and adopt all necessary rules for the guidance and control of their meetings.

3629. Said boards shall meet regularly semi-annually, at some central point in their respective districts, to conduct examinations and grant certificates, as hereinafter provided; and they shall give at least one month's notice of the time and place of their meeting, by publication in at least one newspaper published in the district in which such meeting is to be held.

3630. Each and every one of such boards shall procure a seal as soon as practicable after their organization, which seal shall be impressed upon every certificate granted.

3631. Whenever a vacancy occurs in any of said boards, the same shall be filled by the judge of the district in which such vacancy occurs.

3632. It shall be the duty of said board to examine thoroughly all applicants for certificates of qualification to practice medicine in any of its branches or departments, whether such applicants are furnished with medical diplomas or not, upon the following subjects, to wit: Anatomy, physiology, pathological anatomy and pathology, surgery, obstetrics and chemistry; but no preference shall be given to any school of medicine.

3633. When the board shall be satisfied as to the qualifications of an applicant, they shall grant to him a certificate to that effect, which certificate shall entitle the person to whom granted to practice medicine in any county, when the same has been recorded as required by article 3635.

3634. Any two of the members of such board of medical examiners may grant a certificate of qualification to an applicant, and any member of said board shall have authority to grant a temporary certificate to an applicant, upon examination, until the next regular meeting of the board, at which time the temporary certificate shall cease to be of force.

3635. The certificate provided for in the two preceding articles shall, before the person to whom it was granted is entitled to practice by virtue thereof, be recorded in the office of the clerk of the district court of the county in which such practitioner may reside or sojourn, in a well-bound book to be kept by the clerk for that purpose, and when so recorded said clerk shall certify thereon, under his official seal, the fact and date of such record, and shall return such certificate to the person for whom the same was granted, and shall be entitled to demand and receive for such service from the holder of such certificate the sum of one dollar.

3636. The board shall be entitled to demand and receive from each applicant examined the sum of fifteen dollars whether a certificate be granted to such applicant or not.

3637. The provisions of this title shall not apply to the following persons:

(1.) To those who may have already qualified for the practice of medicine under an act entitled "An Act to regulate the practice of medicine," passed May 16, 1873.

(2.) To those who have been regularly engaged in the general practice of medicine in this State, in any of its branches or departments, for a period of five years prior to the first day of January, 1875.

(3.) To females who follow the practice of midwifery, strictly as such.

3638. No person except those named in the preceding article, shall be permitted to practice medicine in any of its branches or departments without first having obtained and recorded a certificate of qualification from some authorized board of medical examiners, as hereinbefore provided, and any person so offending shall be punished as provided in the penal code.

Number of Physicians, 254.

The State of Utah extends from 37 degrees to 42 degrees north latitude, and from 109 degrees to 114 degrees west longitude, and is bounded on the north by Wyoming and Idaho, on the south by Arizona, on the east by Colorado, and on the west by Nevada.

It comprises an area of 84,476 square miles, or 54,064,640 acres, and forms part of the vast plateau which lies between the Rockies and the Sierra Nevada. The surface is very mountainous, interspersed with arid plains, valleys and basins; much of it is utterly sterile. The principal rivers of the State are the Bear, Malade, Weber, Ogden, Jordan, Green, Grand, White, etc. The climate is mild and dry, the mean annual temperature as observed at Salt Lake City being 51.86 degrees, that of the summer 73.59 degrees, and of the winter 30.38 degrees. The average annual rainfall is about 18 inches, but in the vicinity of the Great Salt Lake it increases to 23 inches.

The following table shows increase in population during 40 years:

1850.	11,380	1880.	143,963
1860.	40,273	1890.	207,905
1870.	86,786		

Rate of Mortality in Utah, as computed from the U. S. Census of 1890:

Population.	Deaths in 1890.	Rate per 1,000.	White.	Colored.	Rate per 1,000 White.	Rate per 1,000 Colored.
207,905	2,118	10.19	2,107	11	10.23	5.53

Total number of deaths from consumption during 1890 was 62. which was at the rate of .30 per 1,000 of population, or 29.26 per 1,000 of total deaths.

MEDICAL LAWS OF UTAH.

AN ACT REGULATING THE PRACTICE OF MEDICINE IN THE STATE OF UTAH.

Be It Enacted by the Governor and Legislative Assembly of the State of Utah:

Section 1. That upon the passage of this act, the Governor of this State shall, by and with the consent of the Council, appoint biennially a board of seven medical examiners from the various recognized schools of medicine, who shall hold office for two years, or until their successors are appointed and qualified. The examiners so appointed, shall go before a District or Probate Judge, and make oath that they are graduates of legally chartered medical colleges in good standing, and that they will faithfully perform the duties of their office. All vacancies caused by removal, death, resignation, or otherwise, shall be filled by appointment by the Governor within one month from the time that the vacancy shall occur.

Sec. 2. Said Board shall organize immediately after the passage of this Act by selecting from its members, a President, a Secretary and a Treasurer, and shall have a seal and attest its official acts under seal. The President of said Board shall have authority to administer oaths, and the Board shall take testimony in all matters relating to its duties. Said Board shall have the power to issue certificates to all who furnish satisfactory proofs of having received degrees or diploma, from chartered medical colleges in good standing, and pass a satisfactory examination before said Board. Said Board shall prepare two forms of certificates, one for persons duly holding certificates examined and favorably passed upon by the said Board, the other for persons as provided for in Section 11 of this Act, and shall furnish to the County Recorder of the several counties a list of all persons residing in said county receiving certificates from the Board. Certificates shall be signed by all the members of the Board granting them.

Sec. 3. The fee for the examination as provided for in Section 2 of this Act, shall be fifteen dollars, which shall be paid to the Treasurer of the Board of Examiners.

Sec. 4. Graduates of respectable medical colleges who were engaged in actual practice in this State prior to March 10, 1892, shall be licensed to practice medicine under this Act upon presentation of their diploma to said Board and upon producing satisfactory evidence of the identity of said applicant. The fee for such license shall be five dollars, to be paid to the Treasurer of the Board of Examiners. All persons not graduates of medical colleges, who have practiced medicine five years continuously in this State prior to the passage of this Act, shall upon producing to the Board of Medical Examiners a proper application, accompanied by a petition signed by twenty-five legal voters living in the city or precinct where such applicant practices, on payment of a fee of five dollars, receive a (certificate) license to practice medicine in the city, county or precinct where the signers of the applicant's petition reside. No non-graduate so licensed shall, however, in any way advertise as a doctor, physician or surgeon, but shall, if he advertises at all, do so as a licensed non-graduate practitioner of medicine. The Secretary of the Board shall enter, without fee, upon the register to be kept by him, the names of all persons to whom licenses are issued as physicians and surgeons.

Sec. 5. Every person holding a certificate from said Board shall have it recorded in the office of the Recorder of the county in which he resides, within three months from its date, and the date of the record shall be

endorsed thereon. Until such certificate is recorded as herein provided, the holder thereof shall not exercise any of the privileges conferred therein to practice medicine. Any person removing to another county to practice medicine shall record the certificate in like manner in the county to which he removes, and the holder of the certificate shall pay the Recorder the usual fees for recording other papers.

Sec. 6. The County Recorder shall keep in a book provided for that purpose a complete list of the certificates recorded by him, with the date of the issue of the certificate, and if the certificate be based upon a degree and examination, he shall record the name of the medical college conferring the degree and the date thereof. The register of the County Recorder shall be open to public inspection during business hours.

Sec. 7. Examinations shall be made wholly or partially in writing, and the Board of Medical Examiners may refuse to issue the certificates provided for in this Act to individuals guilty of immoral or dishonorable conduct, the nature of which shall be stated in writing, and it may revoke such certificate for like causes. In all cases of refusal or revocation the applicant may appeal to the Chief Justice of the State, who may affirm or overrule the decision of the Board.

Sec. 8. Any person shall be regarded as practicing medicine within the meaning of this Act, who shall treat, operate upon or prescribe for any physical ailment of another for a fee, or who shall hold him or herself out by means of signs, cards, advertisements or otherwise, as a physician or surgeon; but nothing in this Act shall be construed to prohibit services in case of emergency, or the administration of family remedies, and this Act shall not apply to commissioned surgeons of the United States army in the discharge of their official duties or to visiting physicians in the act of consultation.

Sec. 9. Any person practicing medicine or surgery within the State without having first obtained a certificate as herein provided for, or contrary to the provisions of this Act, shall be deemed guilty of a misdemeanor.

Sec. 10. All persons not graduates of medical colleges who have practiced medicine in this State less than five years prior to the taking effect of this Act, shall, upon proper application, payment of the fee for examination as provided for in Section 3 of this Act, accompanied by a petition signed by twenty-five legal voters, living in the city or precinct where such applicant practices, be admitted to examination before the Board of Medical Examiners, and if satisfactory, shall receive a certificate. And all persons not having applied for or received such certificate within six months after the taking effect of this Act, and all persons whose applications have, for cause herein named, been rejected, or certificates revoked, shall, if they practice medicine, be deemed guilty of practicing in violation of law, and shall suffer the penalties herein provided.

Sec. 11. All persons desiring to practice obstetrics in this State shall apply to the Board of Examiners for a certificate, and after passing a proper examination, shall be entitled to the same upon paying to the Treasurer of said Board the sum of five dollars, to be applied towards defraying the expenses of said Board. Any person practicing obstetrics within this State, without first obtaining the license herein provided for, contrary to the provisions of this Act, shall be guilty of a misdemeanor. Provided, That all persons who shall furnish to said Board satisfactory evidence, by affidavits or otherwise, of having practiced obstetrics previous to the passage of this Act, shall receive a license without examination upon the payment of a fee of one dollar. Nothing in this Section shall be construed to apply to physicians holding certificates in accordance with this Act, or to prohibit service in case of emergency, or to persons practicing obstetrics in communities where there are no licensed practitioners, or prohibiting a fee therefor.

Sec. 12. The Board of Medical Examiners shall meet on the first Monday in January, April, July and October of each year at 10 o'clock a. m., and such other times as the President of the Board shall deem necessary. The place of meeting shall be at the State Capitol.

Sec. 13. Any member of said Board may be removed for misconduct in office by a two-thirds vote of all the members of the Board, but no member shall be removed until after he has been given a trial before said Board.

Sec. 14. The term "Medical College" in this Act shall include colleges in good standing in the States where they exist.

Sec. 15. Nothing in this Act shall be deemed to require persons now holding certificates from the State Board of Examiners to make application for license.

Sec. 16. Moneys received under this Act may be applied in defraying the expenses of said Examining Board.

Sec. 17. All Acts and parts of Acts in conflict with this Act are hereby repealed.

Sec. 18. This Act shall take effect from its approval.

The State of Vermont extends from 42 degrees to 45 degrees north latitude, and from 71 degrees 25 minutes to 73 degrees 26 minutes west longitude, and is bounded on the north by Canada, on the south by Massachusetts, on the east by New Hampshire and on the west by New York. It comprises an area of 10,212 square miles, or 6,535,680 acres, and is intersected by the Green Mountains, which, trending from north to south, nearly parallel to the western boundary, are covered by dense forests of coniferous trees. The rivers of the State are the Connecticut, Barton, Black, Missisquoi, Lamville, Winwoski, Passumpsic, Wells, Poultney, etc.

The climate is cold, and like most of the New England States, is marked by great extremes, the winters being severe and of long duration, and the summers short, but extremely warm. The mean annual temperature, as observed at Montpelier, is 42.76 degrees, and the average annual rainfall about 36 inches.

The following table shows increase in population during 70 years:

1820.	235,966	1860.. . . .	315,098
1830.....	280,652	1870.....	330,551
1840.	291,948	1880..	332,286
1850.	314,120	1890.... ..	332,422

There are a number of mineral springs in the State.

There is one medical college in Vermont, the Medical Department of the University of Vermont, at Burlington.

Rate of Mortality in Vermont, as computed from the U. S. Census of 1890.

Population.	Deaths in 1890.	Rate per 1,000.	White.	Colored.	Rate per 1,000 White.	Rate per 1,000 Colored.
332,422	5,425	16.32	5,412	13	16.33	12.95

Total number of deaths from consumption during 1890 was 661, which was at the rate of 1.99 per 1,000 of population, or 121.84 per 1,000 of total deaths.

INCORPORATED MARCH, 1888.

The Chicago Ophthalmic College,

A SCHOOL OF APPLIED OPTICS AND OPHTHALMOLOGY FOR
PHYSICIANS AND OPTICIANS.

The Chicago Ophthalmic Hospital,

FOR DISEASES OF THE EYE, EAR, NOSE AND THROAT.

H. M. MARTIN, M. D., President, Surgeon-in-Charge.

This school is designed for physicians and opticians who desire to become proficient in ophthalmic optics and ophthalmology. We were the originators of teaching these specialties, and have more successful students in the field than all other colleges combined. Having had the most experience, we can guarantee the best satisfaction to all earnest students.

COLLEGE BUILDING.

It is easy of access and desirably located. The lecture and clinical rooms are large and well arranged; being furnished with all the instruments and apparatus for thorough and practical study of the subjects taught. The use of the ophthalmoscope is practically taught to each student, so that they can, at a glance, recognize all the errors of refraction, and approximately their amount. A special feature is the use of a dissolving lime lantern with colored plates, which illustrates all diseases and errors of refraction with life-like likeness.

COLLEGE HOSPITAL.

The upper floors of the college building are divided into hospital wards and single rooms for private patients. Twenty beds are in constant use, and there is space for several more if required. Over one hundred operations were performed during the past year. The surgeon in charge resides in the hospital. This insures to all patients intrusted to this hospital the best possible attention, secured from 15 years' experience. Electric call bells are attached to all beds.

THE DISPENSARY.

The dispensary supplies ample material for illustrating all the acute and chronic affections of the eye, ear, nose and throat. An abundance of cases showing all varieties of refractive errors, muscular weakness, innervations, etc., which gives each student an opportunity of familiarizing himself, by personal experience, with their detection and proper relief.

PHYSICIANS' DEPARTMENT OF THEORETICAL AND APPLIED OPHTHALMIC OPTICS.

This department was established with a view of furnishing educated physicians and ophthalmic practitioners necessary instruction to qualify them for recognizing and correcting all defects of vision and muscular irregularities that can be remedied by the use of lenses or surgical treatment. This departure was taken in view of the fact that there are thousands of intelligent physicians and ophthalmic practitioners who make a profession of prescribing lenses but have not had the advantages of thorough instruction in their proper adjustment. This is the only institution open to physicians and ophthalmic practitioners, where they are taught how to correct all errors of refraction and muscular defects. Every physician knows that many people lose their eyesight endeavoring to have lenses adjusted when there really exists a diseased condition. People usually go to their family physician when their eyes first trouble them, and should he be incompetent, they might lose their sight when prompt and proper treatment would have restored it. Students at this college have the advantage of seeing such cases as referred to, and would never need to make so great a mistake. Again, none but physicians who have devoted special study to this subject, fully appreciate the vast amount of injury that may be done to the organ of vision by delays in proper treatment or imperfectly correcting its optical and muscular defects. Thoroughly qualified physicians and ophthalmic practitioners can co-operate with the members of the medical profession in educating the people to a full appreciation of the requirements of the eye. In no other specialty is the old saying so true, that "a little learning is a dangerous thing."

TIME OF INSTRUCTION, ETC.

A course of lectures will begin the first Tuesday of each alternate month, beginning with January of each and every year. In conclusion, we can but thank the public and profession for the kind and generous appreciation of our efforts in the past, and trust that our actions will merit a continuation in the future. In reference to the College Department and Hospital, correspondence is respectfully solicited.

MEDICAL LAWS OF VERMONT.

Sec. 3908. Medical societies organized under a charter from the General Assembly shall, at each annual session, elect a board of censors, consisting of three members, who shall hold their office till others are elected; which board may examine and license practitioners of medicine, surgery or midwifery.

Sec. 3909. A practitioner of medicine, surgery or midwifery who, by sign or advertisement, offers his services to the public as practitioner of either medicine, surgery or midwifery, or who, by such sign or advertisement, assumes the title of doctor, shall obtain a certificate from one of such medical societies, either from a county, district or state society.

Sec. 3910. A person not a resident of this State, who has not received a diploma from a chartered medical college, shall obtain a certificate from a board of censors in this State before he shall be permitted to practice the medical art in this State.

Sec. 3911. Each board of censors shall issue certificates without fee to physicians and surgeons who furnish evidence, by diploma from a medical college or university or by certificate of examination by an authorized board, which satisfies said censors that the person presenting such credentials has been, after due examination, deemed qualified to practice the branches mentioned in such diploma or certificate.

Sec. 3912. The censors of each medical society aforesaid shall, in their discretion, notify practitioners of medicine, surgery or midwifery, of the terms of this chapter, and shall require such persons to comply therewith, within thirty days after such notification, or within such further time as is allowed by the censors, not exceeding ninety days.

Sec. 3913. The certificate shall set forth that said censors have found the person to whom it is given qualified to practice the branches of medical art mentioned in it, and shall be substantially in the following form:

No.

CERTIFICATE.

State of Vermont, County of

This may certify that the undersigned Board of Censors have found, of, in the County of, and State of, qualified in the following branches of the medical profession:....., and therefore license him to practice said branches within this State.

.....
.....

Board of Censors of Medical Society.

Sec. 3914. The person to whom a certificate is thus issued shall cause the same to be recorded in the clerk's office of the county in which he resides, or if not a resident of the State, in the county in which he obtains such certificate, in a book to be kept by the county clerk for that purpose and to be called the medical register of county. The fee for recording such certificate shall be twenty-five cents.

Sec. 3915. A certificate issued by a board of censors, as herein provided, shall be valid throughout the State after being duly recorded. Said censors may revoke or annul a certificate, if, in their judgment, the person holding it has obtained it fraudulently, or has forfeited his right to public confidence, by conviction of crime.

Sec. 3916. A person who practices medicine, surgery or midwifery in the State or signs a certificate of death for purposes of burial or removal, unless authorized so to do by a certificate issued and recorded as herein provided, shall, for the first offense, be fined not less than fifty nor more than two hundred dollars, and for a subsequent offense not less than two hundred nor more than five hundred dollars; which fine may be recovered by an action of debt for the use of any person who sues therefor, or by an indictment.

Sec. 3917. No person practicing either of the branches of medicine, surgery or midwifery within this State, shall be permitted to enforce, in the courts, the collection of a fee or compensation for services rendered, or medicine or material furnished, in the practice of any of the branches, for which he has not a certificate as provided in this chapter.

Sec. 3918. This chapter shall not apply to the practice of dentistry, nor to the practice of midwifery by women in the town or locality in which they reside, nor to those practitioners of medicine who had resided and practiced medicine in the State five years previous to November 28, 1876.

SPARHAWK SANITARIUM

FOR THE TREATMENT OF

Medical and Surgical Diseases,

150 BANK STREET,

BURLINGTON, = VERMONT.

This Sanitarium, recently built and equipped with all modern appliances, is designed to furnish a place where patients may be under the direct care of a physician and at the same time enjoy all the comforts of home life. Located in the picturesque City of Burlington, which overlooks Lake Champlain and furnishes a variety of Lake and Mountain scenery, it is yet sufficiently isolated to satisfy the requirements of all those who need rest.

This institution has accommodations for thirty patients; the rooms are pleasant, comfortably furnished and heated by steam, with fire places for mild weather.

A Bath Establishment in connection with the Sanitarium furnishes Turkish, Electro-Vapor and Medicated Baths, according to the needs of the patient. Massage treatment is given by competent attendants. Trained nurses attend such patients as require special services. Patients are received by the week or month at reasonable rates.

Address the physicians in charge for further information.

Virginia, one of the original thirteen states, extends from 36 degrees 30 minutes to 39 degrees 27 minutes north latitude, and from 75 degrees 10 minutes to 83 degrees 30 minutes west longitude, and is bounded on the north by Maryland and West Virginia, on the south by Tennessee and North Carolina, on the east by Chesapeake Bay and the Atlantic Ocean, and on the west by Kentucky and West Virginia. It comprises an area of 38,348 square miles or 24,542,720 acres.

The six great natural divisions of the surface may be briefly described as follows: The tide water, comprising the south and southeast; the middle, an undulating plain extending west to the Coast range; the Piedmont, from the Coast range to the Blue Ridge mountains and to North Carolina from the Potomac; the Blue Ridge, crossing the State in a southwesterly direction; the Valley, a broad belt of gently rolling fertile country between the Blue Ridge and North mountains; and the Appalachian, a mountainous region through which trend the Alleghenies.

The principal rivers are the Potomac, Shenandoah, Rappahannock, Rapidan, York, James, New, Nottoway, Roanoke, and the West Fork.

The climate is mild and on the whole salubrious, the most unhealthy portion being the tide water country. The mean annual temperature as observed at Richmond is 57.53° and the average annual rainfall is about 40 inches.

MEDICAL LAWS OF VIRGINIA.

AN ACT TO REGULATE THE PRACTICE OF MEDICINE AND SURGERY IN THE STATE OF VIRGINIA.

1 Be it enacted by the General Assembly of Virginia, That from and after the passage of this act the following persons and no others, shall be permitted to practice medicine or surgery in this State:

First. All persons who have practiced medicine or surgery in this State continuously for a period of at least five years prior to the passage of this act, but only such persons as have been assessed with a license tax as a physician or surgeon by some Commissioner of the Revenue in this State during each of the five years preceding the passage of this act shall be regarded as included within the provisions of this clause. Provided, that this act shall not apply to any physician or surgeon now legally licensed and practising as such in this State.

Second. All persons who have been duly examined, and have been awarded certificates by the board of medical examiners under the acts of January 31st, 1884, March 1st, 1888, and Chapter LXXVII of the code, or the amendments thereto, and who have also otherwise complied with the requirements of the said laws.

Third. All persons who shall hereafter receive certificates from the Board of Medical Examiners of this State, as provided by section six of this act, and who shall also, in all other respects, have complied with the provisions of the same.

2. Any person shall be regarded as practising medicine or surgery within the meaning of this act who shall profess publicly to be a physician or surgeon, and shall offer for practice as such, or who shall prescribe for the sick, or for those needing medical or surgical aid, and shall charge and receive therefor money or other compensation, directly or indirectly; but this act shall not apply to any midwife, dentist, commissioned officer or contract surgeon of the United States army or navy or marine hospital service in the performance of his duties as such, nor to any physician or surgeon residing in any State or Territory of the United States, or in the District of Columbia, called into consultation in a special case with a physician or surgeon residing in this State. Nor shall this act be construed as affecting or changing, in any way, the laws in reference to the license tax to be paid by physicians, surgeons, and dentists.

3. There shall be for this State a Board of Medical Examiners, consisting of one member from each Congressional District in this State, and two for the State at large, and, in addition, two homoeopathic physicians from the State at large, whose term of office shall be four years, or until their successors are appointed and qualified. The term of office of the Board first appointed, after this act takes effect, shall commence on the first day of November, 1894, but the Board in office under the law in force at the time of the passage of this act shall constitute the Board of Medical Examiners under

this act until a new Board shall be appointed under authority of the same.

4. The said Board shall consist of men learned in medicine and surgery, and shall be appointed by the Governor on the first day of November, 1894, and every fourth year thereafter, from a list of names to be recommended by the Medical Society of Virginia. He shall also appoint two homoeopathic physicians, who may be nominated to him by the Hahnemann Medical Society of the Old Dominion in the manner hereinafter provided. Vacancies occurring in such Board for unexpired terms shall be filled in the same manner. Such recommendations shall be by vote of a majority present, at some meeting of the said Societies, and the same shall be certified to the Governor by the President and Secretary of such Societies: provided, however, in case the Governor shall consider any of the persons so recommended unsuitable, he may decline to appoint such person or persons, and communicate the fact to the presiding officers of the Society presenting the nomination, and such Society shall, within ninety days thereafter, make other recommendations in the manner hereinafter prescribed, which shall stand on the same footing in all respects as those first made: provided further, if such Society fail to make such recommendations prior to the time of appointment, or within the ninety days, the Governor shall appoint such Board, either in whole or in part, without regard to such recommendations. If any of said examiners shall cease to reside in the District for which he was appointed, his office shall be deemed vacant.

5. The members of the said Board shall qualify by taking the usual oath of office before the county or corporation court of the county or corporation in which they respectively reside, or before the judge of such court in vacation. The officers of said Board shall be a President, Vice-President, and Secretary (who shall also act as Treasurer), said officers to be members of and selected by the Board. Regular meetings of the Board shall be held at such times and places as the Board may prescribe, and special meetings may be held upon the call of the President and any five members, but there shall not be less than one regular meeting each year. Five members of the Board shall constitute a quorum. The Board may prescribe rules, regulations and by-laws for its own proceedings and government, and for the examination by its members of candidates for the practice of medicine and surgery.

6. It shall be the duty of said Board, at any of its meetings, to examine all persons making application to them, who shall desire to commence the practice of medicine or surgery in this State, and who shall not, by the provisions of this act, be exempt from such examination; and when an applicant shall have passed an examination satisfactory as to efficiency before the Board in session, the President thereof shall grant to such applicant certificate to that effect. A fee of five dollars shall be paid to said Board, through such officers or members as it may designate, by each applicant, before such examination is had. In case any applicant shall fail to pass a satisfactory examination, he shall not be permitted to stand any further examination within the next six months thereafter, or until the next meeting of said Board, nor shall he have again to pay the fee prescribed as aforesaid: provided, however, no applicant shall be rejected upon his examination on account of his adherence to any particular school of medicine or system of practice, nor on account of his views as to the method of treatment and cure of diseases: and provided, further, that when, in the opinion of the President of the Board, any applicant has been prevented by good cause from appearing before the Board, the President of the Board shall appoint a committee of three members, who shall examine such applicant, and may, if they see fit, grant him a certificate, which shall have the same force and effect as though granted him by the full Board, until the applicant shall have an opportunity to appear before the said Board, when, if the applicant fail to appear for examination, the President of the Board shall have authority to revoke said certificate, or, in any case, the President shall have authority, at his discretion, to grant a special permit to any applicant to practice medicine, until he shall have an opportunity to appear before the Board in session for examination, which said special permit shall be revokable at the discretion of the President.

7. The fund realized from the fees aforesaid shall be applied by the Board to the payment of its expenses, and to making a reasonable compensation to the President and Secretary.

8. Before any person who obtains a certificate under section six of this act may lawfully practice medicine or surgery in this State, he shall cause the said certificate to be recorded in the clerk's office of the county or corporation in which he resides in this State: or, if he resides in the city of Richmond, in the clerk's office of the chancery court of said city; but if he does not reside in the State of Virginia, he shall cause the said certificate to be recorded in the clerk's office of the county or corporation in which he offers to practice in this State, or in the clerk's office of the chancery court of the city of Richmond, if he offers to practice in said city. The certificate shall be recorded by the clerk in a book to be kept for that purpose, and it shall be indexed in the name of the person to whom the certificate is granted. The clerk's fee for recording shall be the same as for recording a deed.

9. Any person who shall practice medicine or surgery in this State in vio-

lation of the provisions of this act shall be fined not less than fifty nor more than five hundred dollars for each offence, and it shall not be lawful for him to recover by action, suit, motion, or warrant, any compensation for services which may be claimed to have been rendered by him as such physician or surgeon.

10. All acts and parts of acts inconsistent with this act are hereby repealed.

11. This act shall be in force from its passage.

Approved February 22, 1894.

Washington extends from 45 degrees 33 minutes to 49 degrees north latitude, and from 117 degrees to 124 degrees 41 minutes west longitude, and is bounded on the north by the British Possessions, on the south by Oregon, on the east by Idaho, on the west by the Pacific Ocean, and on the northwest by the Strait of San Juan de Fuca and the Strait of Georgia. It comprises an area of 69,994 square miles, or 44,796,160 acres, and is divided by the Cascade Mountains into two distinct sections; the western, a heavily timbered country, rugged and broken, with a few fertile prairies; and the eastern, which has extensive plains admirably adapted to stock raising.

The climate is mild, equable and salubrious, and the mean annual temperature is 50.81° The average annual rainfall is about 39 inches. The principal rivers are the Columbia, Snake, Spokane, Walla Walla, Yakima, Klickitat and Cowlitz. Gold and silver are mined.

The following table shows increase in population during 30 years:

1860.....	11,594	1880.....	75,116
1870.	23,955	1890.....	349,390

Rate of Mortality in Washington, as computed from the U. S. Census of 1890:

Population.	Deaths in 1890	Rate per 1,000	White	Colored	Rate per 1,000, White.	Rate per 1,000, Colored.
349,390	2,695	7.71	2,630	65	7.72	7.32

Total number of deaths from consumption during 1890 was 278, which was at the rate of .79 per 1,000 of population, or 103.15 per 1,000 of total deaths.

MEDICAL LAWS OF WASHINGTON.

AN ACT TO REGULATE THE PRACTICE OF MEDICINE AND SURGERY IN THE STATE OF WASHINGTON, AND TO LICENSE PHYSICIANS AND SURGEONS; TO PUNISH ALL PERSONS VIOLATING THE PROVISIONS OF THIS ACT, AND TO REPEAL ALL LAWS IN CONFLICT THEREWITH, AND DECLARING AN EMERGENCY.

Be it enacted by the Legislature of the State of Washington:

Section 1. The Governor of this State shall appoint a board of examiners to be known as the State Medical Examining Board, consisting of nine members, who shall be learned and skilled in the practice and theory of medicine and surgery, and who shall hold their office for three (3) years, and until their successors are appointed and qualified: Provided, That the members thereof first appointed under this act shall be divided into three (3) classes, each class to consist of three (3). The first class shall hold office under said appointment for the period of one (1) year, the second class for two (2) years, and the third class for three (3) years from the date of their appointment. It is further provided, That no member thereof shall be appointed to serve for more than two terms in succession.

2. The members of said Medical Examining Board, shall, before entering upon their duties as such members, take and subscribe an oath to support the Constitution and laws of the State of Washington, and of the United States, and to well and faithfully and without partiality perform the duties of such office according to the best of their knowledge and ability; which oaths shall be filed and preserved of record in the office of the secretary of said Board. Said Medical Examining Board shall elect a president, secretary and treasurer, and shall have a common seal. The president and secretary shall have the power to administer oaths; said Medical Examining Board shall hold meetings for examination on the first Tuesday of January and July of each year; said meetings shall be held alternately in western and eastern Washington at such places as the Board may designate: Provided, That the first meeting be held at Olympia within thirty (30) days after the appointment and qualification of said Board: And provided, That the Board may call special meetings when in the opinion of a majority of said Board such special meetings are necessary; and said Board shall keep a record of all the proceedings thereof, and also a record or register of all applicants for a license, together with his or her age, the time such applicants shall have spent in the study and practice of medicine and surgery, if they shall have so practiced at all, and the name and location of all institutions granting to such applicants degrees, or certificates of lectures in medicine or surgery. Said record or register shall also show whether such applicant was rejected or licensed under this act. Said books and register shall be prima facie evidence of all matters therein recorded.

3. Hereafter every person desiring to commence the practice of medicine and surgery, or either of them, in any of their or its branches in this State, shall make a written application to said Board for a license so to do, which application shall be supported and accompanied by an affidavit of such applicant, setting forth the actual time spent by the applicant in the study of medicine and surgery, and when; whether such study was in an institution of learning, and if so, the name and location thereof, and if not in such an institution, where and under whose tutorship such study was prosecuted; the time said applicant shall have been engaged in the actual practice, if at all, of medicine and surgery, or either of them, and where the applicant was located during the time of such practice, and the age of the applicant at the time of making such application; such application and affidavit to be filed and preserved of record in the office of the secretary of said Board. Such applicant, at the time and place designated by said Board, or at the regular meeting of said Board, shall submit to an examination in the following branches, to wit: anatomy, physiology, chemistry, histology, materia medica, therapeutics, preventive medicines, practice of medicine, surgery, obstetrics, diseases of women and children, diseases of the nervous system, diseases of the eye and ear, medical jurisprudence, and such other branches as the Board shall deem advisable. Said Board shall cause such examination to be both scientific and practical, and of sufficient severity to test the candidate's fitness to practice medicine and surgery; which examination shall be by written or printed, or partly written and partly printed, questions and answers, and the same shall be filed and preserved of record in the office of the secretary of said Board. After examination, if the same be satisfactory, said Board shall grant a license to such applicant to practice medicine and surgery in the State of Washington; which said license can only be granted by the consent of not less than five members of said Board, except as herein-after provided, and which said license shall be signed by the president and secretary of said Board, and attested by the seal thereof. The fee for such examination shall be ten (\$10) dollars, and shall be paid by the applicant to the treasurer of said Board toward defraying the expenses thereof, and such

Board may refuse or revoke a license for unprofessional or dishonorable conduct, subject, however, to the right of such applicant to appeal from the decision of said Board refusing or revoking such license, as hereinafter provided.

4. The words "unprofessional or dishonorable conduct," as used in section three (3) of this act, are hereby declared to mean—

First. The procuring or aiding or abetting in procuring a criminal abortion.

Second. The employing of what are popularly known as "cappers" or "steerers."

Third. The obtaining of any fee on the assurance that a manifestly incurable disease can be permanently cured.

Fourth. The wilfully betraying a professional secret.

Fifth. All advertising of medical business in which untruthful and improbable statements are made.

Sixth. All advertising of any medicines or of any means whereby the monthly periods of women can be regulated, or the menses re-established if suppressed.

Seventh. Conviction of any offense involving moral turpitude.

Eighth. Habitual intemperance.

5. In any case of the refusal or revocation of a license by said Board under the provisions of this act, said Board shall file a brief and concise statement of the grounds and reasons for such refusal or revocation, in the office of the secretary of said Board, which said statement, together with the decision of said Board in writing, shall remain of record in said office. Before a license can be revoked by said Board for unprofessional or dishonorable conduct under the provisions of this act, a complaint of some person under oath must be filed in the office of the secretary of said Board, charging the acts of unprofessional or dishonorable conduct and facts complained of against the licentiate accused, in ordinary and concise language; and thereupon said Board shall cause to be served upon such accused licentiate a written notice and copy of such complaint, which said notice shall contain a statement of the time and place of hearing of the matters and things set forth and charged in such complaint, and said notice shall be so served at least ten days prior to the time of such hearing. Such accused licentiate may appear at such hearing and defend against the accusation of such complaint personally, and by counsel, and may have the sworn testimony of witnesses taken, and present other evidence in his behalf at such hearing, and said Board may receive the arguments of counsel at such hearing.

6. In any case of the refusal or revocation of a license by said Board under the provisions of this act, the applicant whose application shall be so refused, and the licentiate whose license shall be so revoked by said Board, shall have the right to appeal from the decision so refusing or revoking such license within thirty days after the filing of such decision in the office of the secretary of said Board, as hereinbefore in this act provided. Such appeal shall be to the superior court in and for the county in which was held the last general meeting of said Board prior to the refusal of such license, in the case of such refusal; and to the superior court in and for the county in which the hearing was had upon which such license was revoked in case of such revocation. In any case, a person desiring to take such appeal, shall serve or cause to be served upon the secretary of said Board a written notice of such appeal, which shall contain a statement of the grounds of such appeal, and shall file in the office of such secretary an appeal bond with good and sufficient surety, to be approved by said secretary, to the State of Washington, conditioned for the speedy prosecution of such appeal, and the payment of such costs as may be adjudged against him upon such appeal. Said secretary shall, within ten (10) days after the service of said notice of appeal, and the filing and approval of said appeal bond, transmit to the clerk of the superior court to which such is taken, a certified copy under the seal of said Board, of the decision of said Board, and the grounds thereof in the case of the refusal of a license; and in addition thereto, a certified copy, under such seal, of the complaint in the case of the revocation of a license, together with the bond and notice of appeal. The clerk of such court shall thereupon docket such appeal causes and they shall stand for trial in all respects as ordinary civil actions, and like proceedings be had thereupon. Upon such appeal said cause shall be tried de novo. Either party may appeal from the judgment of said superior court to the supreme court of the State in like manner as in civil actions, within sixty (60) days after the rendition and entry of such judgment in said superior court. If such judgment shall be in favor of the party appealing from the decision of said Board, and in case said Examining Board does not appeal from said judgment within sixty (60) days, then and in that case, said Board shall at the end of said sixty (60) days and immediately upon the expiration thereof, issue to such successful party the usual license to practice medicine and surgery in this State, and in addition thereto, shall reinstate

upon the records of said Board the name of such successful applicant in case of the revocation of his license by such Board. In case of such appeal to the superior court by said Board, no such license shall be issued nor reinstatement be required until the final determination of said cause, and as hereinafter provided. In case the final decision of the supreme court be against said Medical Examining Board, then and in that case said court shall make such order in the premises as may be necessary, and said Board shall act accordingly: provided, that in no case shall an appeal bond be required of said Board, nor shall any costs be adjudged or taxed against the same.

7. The person receiving said license shall file the same, or a copy thereof, with the county clerk in and for the county where he or she resides, and said county clerk shall file said certificate or copy thereof, and enter a memorandum thereof, giving the date of said license and name of the person to whom the same is issued, and the date of such filing, in a book to be provided and kept for that purpose, and said county clerk shall each year furnish to the secretary of said Board a list of all certificates on file in his office, and upon notice to him of the change of location or death of a person so licensed, or of the revocation of the license granted to such person, said county clerk shall enter at the appropriate place in the record so kept by him, a memorandum of said fact, so that the records kept by said county clerk shall correspond with the records of the Board as kept by the secretary thereof. In case a person so licensed shall move into another county of the State, he or she shall procure from the county clerk a certified copy of said license, and file the same with the county clerk in the county to which he or she shall remove. Said county clerk shall file and enter the same with like effect as if the same was the original license.

8. Any person practicing medicine or surgery within this State without first having obtained the license herein provided for, or contrary to the provisions of this act, shall be deemed guilty of a misdemeanor, and upon conviction thereof, shall be fined not less than fifty (\$50) dollars nor more than one hundred (\$100) dollars, or by imprisonment in the county jail not less than ten nor more than ninety days, or by both such fine and imprisonment. All such fines shall be paid into the State treasury for the use and benefit of the common schools. Any person shall be regarded as practicing within the meaning of this act who shall append the letters "M. D." or "M. B." to his or her name, or for a fee prescribe, direct or recommend for the use of any person, any drug or medicine, or agency for the treatment, care or relief of any wound, fracture or bodily injury, infirmity or disease; provided, however, the act shall not apply to dentists. Justices of the peace and the respective municipal courts shall have jurisdiction of violations of the provisions of this act. It shall be the duty of the respective county or district attorneys to prosecute all violations of this act. In cases of appeals to the superior courts as hereinbefore provided, it shall be the duty of the district attorney of the county wherein such appeal shall be tried, to represent said Board upon said appeal. And in all cases of appeal to the supreme court under the provisions of this act, the attorney-general shall represent said Board upon such appeal.

9. Said Board shall have authority to prescribe and establish all needful rules and regulations to carry into effect the provisions of this act.

10. Section 2,289 of the General Laws of Washington Territory of 1881, and section 1, to amend section 2,289 of the Code of Washington Territory, are hereby repealed. It is, however, provided, that all persons licensed under said act, or having complied with the provisions thereof, shall be taken and considered as licensed under this act, and the secretary of the Board herein provided for shall enter the names of such persons upon the register so kept by him as licensed physicians and surgeons, upon the written application of such persons.

11. Whereas, great embarrassment and inconvenience in relation to the practice of medicine and surgery in this State will arise from delay of time when this act shall take effect, it is therefore declared that an emergency exists, and this act shall take effect and be in force in thirty days from and after the date of approval by the governor.

MEDICAL LAWS OF WEST VIRGINIA.

AN ACT AMENDING AND RE-ENACTING CHAPTER 150 OF THE CODE OF WEST VIRGINIA CONCERNING THE PUBLIC HEALTH.

Be it Enacted by the Legislature of West Virginia:

Section 1. There shall be a State Board of Health in this State, consisting of two physicians residing in each congressional district thereof, who shall be graduates of reputable medical colleges, and who shall have practiced medicine for not less than twelve years continuously. They shall be appointed by the Governor, and hold their office for the term of four years, unless sooner removed as provided in this chapter. But the members of said board now in office shall, unless sooner removed therefrom, remain in office until their successors are appointed and qualified. On the first day of June, 1882, and in every second year thereafter, or as soon after said day as possible, the Governor shall appoint two members of said board for the term of four years. Vacancies in said board shall be filled by the Governor for the unexpired term. Any person so appointed may be removed from office by the Governor for incompetency, neglect of duty, gross immorality or drunkenness, or for any cause deemed necessary for the public good.

2. The persons so appointed shall take the oath of office prescribed by the fifth section of the fourth article of the constitution of this State, before entering upon the duties of their office, and file a certificate of their having done so with the Secretary of State.

3. The said board shall, on a day to be fixed by them, in every two years, elect from their own number a president and secretary, who shall hold their offices for the term of two years and until their successors are appointed

and enter upon the duties of their office. The said board shall be a corporation by the name and style of "The State Board of Health of West Virginia," and have and use a common seal, and, as such corporation, may sue and be sued, contract and be contracted with, plead and be impleaded, to the extent of the powers conferred upon said board by this chapter. Said board may make and adopt all necessary rules, regulations and by-laws, not inconsistent with the constitution and laws of this State, or of the United States, to enable it to perform its duties and transact its business under the provisions of this chapter. A majority of said board shall constitute a quorum for the transaction of business. A meeting of the board may be called by the president or any three members thereof.

4. The secretary shall be the recording officer of the board, and, in addition to his other duties prescribed in this chapter, he shall respond to all communications of the local boards of health, as well as from any member of said State Board of Health residing at a distance from his office, and give to them such advice and information relative to their duties as he may deem necessary and proper. He shall also do and perform such other duties as the State Board of Health may lawfully direct; and, in case of the prevalence of endemics, epidemics, infectious and contagious diseases, or other unusual sickness, he shall, on the request of the local board of health, visit the locality and advise with them, and adopt such regulations for its suppression as may seem best. He shall annually report to the Governor, on or before the first day of January, the investigations, discoveries, and recommendations of the board, which shall be printed and distributed as soon as practicable thereafter in the same manner as other public documents of the State, except that the Governor may cause said report to be printed and distributed annually.

5. The board shall take cognizance of the interests of the life and health of the inhabitants of the State, and shall make or cause to be made, sanitary investigations and inquiries respecting the causes of disease, especially the endemics and epidemics, and the means of prevention, the sources of mortality, and the effects of localities, employments, habits and circumstances of life on the public health. They shall also investigate the causes of diseases occurring among the stock or domestic animals in the State, the methods of remedying the same, and shall gather information in respect to these matters and kindred subjects for diffusion among the people. They shall also examine into and advise as to the water supply, drainage and sewerage of towns and cities; the ventilation and warming of public halls, churches, school houses, workshops and prisons; the ventilation of coal mines, and how to treat promptly accidents resulting from poisonous gases. When they may believe there is a probability that any infectious or contagious disease will invade the State from any other State, it shall be their duty to take such action and adopt and enforce such rules as they may, in the exercise of their discretion, deem efficient in preventing the introduction and spread of such disease or diseases. The better to accomplish such objects, the board are empowered to establish and strictly maintain quarantine at such places as they may deem proper, and may adopt rules and regulations to obstruct and prevent the introduction or spread of infectious or contagious diseases to or within this State. They may enforce inspections of persons and articles of baggage, or other goods of whatsoever character, as well as the purification of the same, and companies or individuals operating or controlling railroads, passenger coaches, public conveyances, and steamers plying the Ohio river, or its tributaries in this State, shall obey the rules and regulations when made and published by the board in some newspaper printed at or near the place where the danger is; and any owner or person having charge of such railway train, passenger coach, steamboat or public or private conveyance who shall refuse to obey such rules and regulations when so made and published, shall be guilty of a misdemeanor, and for each offense be fined not less than fifty nor more than five hundred dollars, and be confined in the county jail not less than fifteen days nor more than two months, at the discretion of the court.

6. It shall be the duty of the county court to nominate, and the said board to appoint, in each of the counties of this State, three intelligent and discreet persons residing therein, one of whom, at least, shall be a person qualified to practice medicine under the provisions of this chapter, if there be such person residing in the county, and the persons so appointed shall constitute a local board of health for the county of their residence, and hold their office for the term of two years, and until their successors are appointed, unless sooner removed from office by the State board of health. Vacancies in said local board shall be filled by the State board for the unexpired term upon the nomination of the county court. The said local board of health shall make and establish for their county, or for any district or place therein, such sanitary regulations and rules as they may deem necessary and proper to prevent the outbreak and spread of cholera, small-pox, scarlet fever, diphtheria and other endemic, infectious and contagious diseases; and they, or any of them, may, except in the night time, in the

performance of the duties imposed upon them, enter into or upon any house or premises and inspect the same whenever they have reason to believe that such house or premises is in an unclean or infectious condition; and if any house or premises so inspected be found in such condition as aforesaid, said local board shall direct and require the person in charge of, or occupying the same, if of sufficient ability, to cleanse and purify the same according to the sanitary rules and regulations made by said board as aforesaid; and if any such person shall fail or refuse to comply with and obey the said directions and requirements of said board, he shall be guilty of a misdemeanor, and fined not less than ten nor more than one hundred dollars. Such local board shall also enforce within their county all the lawful rules and regulations of the State board of health applicable to such county.

It shall be the duty of every practicing physician in any county in which there is such local board of health, to report to said board promptly all or any diseases of the above-named character under treatment by him; and said local board shall once, at least, in every three months, report to the State board of health the character of all such infectious, contagious, endemic or epidemic diseases, the number of persons reported as affected with either of said diseases, naming the same; the action taken by such local board to arrest the progress of every such disease, and the visible effects (if any) of such action. Where any city, town or village has a board of health of its own, the jurisdiction of the local board so appointed shall not extend thereto, but such city, town or village board of health shall be auxiliary to and act in harmony with the State board of health.

7. The local board of health of any county may declare quarantine therein, or in any particular district or place therein, against the introduction of any contagious or infectious disease prevailing in any other State, county or place, and of any and all persons and things likely to spread such contagion and infection. As soon as such quarantine is established, such local board shall, in writing, inform the members of the State board of health residing in their congressional district thereof, whose duty it shall be to ascertain as soon as practicable the necessity therefor, if any exist; and if they find that no such necessity exists, they shall declare the same raised. The said local board shall have power and authority to enforce such quarantine until the same is raised as aforesaid, or by themselves; and may confine any such infected person, or any person likely to spread such contagion or infection, to the house or premises in which he or she resides, or if such person have no residence in the county, at a place to be provided by them for the purpose, and if it shall become necessary to do so, they shall summon a sufficient guard for the enforcement of their orders in the premises.

Every person who shall fail or refuse to comply with any order made by such board under this section, and every person summoned as such guard who shall, without lawful excuse, fail or refuse to obey the orders and directions of such board in enforcing said quarantine, shall be guilty of a misdemeanor, and for each offense be fined not less than twenty-five nor more than one hundred dollars. In cases of emergency or of actual necessity, and when the court or corporate authority are from any cause unable to meet or to provide for the emergency or the necessity of the case, all actual expenditures necessary for local and county sanitation, as provided for in this section, shall be certified by the local board of health to the county court, and the whole or as much thereof as the said court may deem right and proper shall be paid out of the county treasury. The board of health of any city, town or village shall have the same powers and perform the same duties herein conferred upon and required of the local board of health in their county. The State board of health may also, under the provisions of this section, declare quarantine in any part of the State, and all the provisions of this section shall be applicable to the quarantine so declared.

8. The State Board of Health, its agents and employes, and the local boards of health, in the absence of the State board, its agents and employes, when they have reason to believe that any steamboat or other water craft navigating the Ohio river or its tributaries in this State, or any other of the waters of the State, or bordering thereon, is infected with any contagious or infectious disease, may prevent the landing of such boat or craft at any point in this State. They may also, if they have reason to believe that any railroad train, coach or other vehicle passing on or along any railroad in this State, contains any person or thing infected with contagious matter, detain at any station or point on such railroad, where it can be done with safety, such train, coach or vehicle, for a time sufficient to examine the same, and if found to be so infected, for a time sufficient to disinfect and purify the same; and if the conductor or person in charge of such train, coach or vehicle shall wilfully fail or refuse to stop the said train, coach or vehicle for the time aforesaid he shall be guilty of a misdemeanor and punished as prescribed in section five (5) of this chapter. Nothing herein contained shall be so construed as to impair or affect the powers and duties:

of the county court of any county under the provisions of sections twenty-five (25) and twenty-six (26) of chapter thirty-nine of the code of West Virginia, as amended and re-enacted by chapter five of the acts of one thousand eight hundred and eighty-one.

LAW REGULATING LICENSES TO PRACTICE MEDICINE.

The following provisions from the act of 1895 set forth the law as it now is with regard to admissions to the profession of medicine in West Virginia, amending and re-enacting Section 9 of Chapter 150 of the code of West Virginia:

WHO MAY PRACTICE MEDICINE IN THIS STATE.

9. The following persons, and no others, shall hereafter be permitted to practice medicine in this State, viz.:

First: All such persons as shall be legally entitled to practice medicine in this State at the time of the passage of this act.

Second: All such persons as shall pass an examination before the State Board of Health and shall receive certificates from the said board to that effect, as hereinafter provided.

EXAMINATIONS BY THE STATE BOARD OF HEALTH.

9a. The State Board of Health shall, at such times as a majority of them may deem proper, hold examinations for the licensing of practitioners of medicine. Such examinations shall not be less in number than three during each year, and shall be held at such points in the State as shall be most convenient to those presenting themselves for examination or to the State Board of Health. At such examinations written and oral questions shall be submitted to the applicants for license, covering all the essential branches of the sciences of medicine and surgery, and the examination shall be a thorough and decisive test of the knowledge and ability of the applicants. The president and secretary of the State Board of Health shall issue certificates to all who successfully pass the said examination, and such certificates, after being duly recorded as hereinafter provided, shall be deemed licenses to practice medicine and surgery in all their branches in this State. The State Board of Health shall give timely notice of the time and place of holding each examination by publishing such notice in at least three newspapers of general circulation in this State, and all persons wishing to present themselves for examination should notify the secretary of the State Board of Health to that effect. No applicant for license to practice medicine in this State shall be rejected because of his or her adherence to any particular school or theory of medicine. The State Board of Health shall call to their assistance in the examination of any applicant who professes the homeopathic or eclectic school of medicine, a homeopathic or eclectic physician duly licensed to practice medicine in the State, and such homeopathic or eclectic physicians so called to the assistance of the State Board of Health shall be allowed the per diem and actual expenses incurred hereinafter allowed to regular members of the State Board of Health: Provided, however, that the provisions of this and the preceding section shall not apply to physicians living in other States and duly qualified to practice medicine therein, who shall be called into consultation in this State, by a physician legally entitled to practice medicine in this State under these sections.

10. Every person holding any such certificate as is hereinbefore provided for shall have the same recorded in the office of the secretary of the State Board of Health, in a book kept by him for that purpose, and the secretary shall endorse on said certificate the fact of such recordation, and deliver the same to the person named therein, or to his order.

11. Every person on presenting himself for examination, as hereinbefore provided, shall pay to the State Board of Health, or to the members thereof by whom he is examined, a fee of ten (10) dollars, which shall not be returned if a certificate be refused him. But he may again, at any time within one year after such refusal, present himself for examination as aforesaid, without the payment of an additional fee, and if a certificate be again refused him, he may, as often as he sees fit thereafter, on the payment of a fee of ten (10) dollars, be examined, as herein provided, until he obtain such certificate.

12. Examinations may be in whole or in part in writing, and shall be of an elementary and practical character, and shall embrace the general subjects of anatomy, physiology, chemistry, materia medica, pathological anatomy, surgery and obstetrics, but sufficiently strict to test the qualifications of the candidate as a practitioner of medicine, surgery and obstetrics. The provisions of this chapter shall not apply to females practicing midwifery.

13. Any person shall be regarded as practicing medicine within the meaning of this chapter who shall profess publicly to be a physician, and to prescribe for the sick, or who shall append to his name the letters "M. D." This act shall also apply to apothecaries and pharmacists who prescribe for the

sick. This act shall not apply to commissioned officers of the United States army and navy and marine hospital service.

14. Any itinerant physician desiring to practice medicine in this State shall, before doing so, pay to the sheriff of every county in which he desires to practice, a special tax of fifty dollars for each month and fraction of a month he shall so practice in such county, and take his receipt in duplicate therefor. He shall present said receipts to the clerk of the county court of such county, who shall file and preserve one of them in his office, and endorse on the other the words: "A duplicate of this receipt has been filed in my office," and sign the same and deliver it to the person presenting the same; and if any such physician shall practice or attempt to practice medicine in any such county without having paid such tax and filed such receipt with the clerk of the county court and obtained his endorsement on the other as aforesaid, or if he shall so practice or attempt to practice for a longer period than that for which he has paid such tax as aforesaid, he shall be guilty of a misdemeanor, and be fined not less than one hundred nor more than five hundred dollars. Any person who shall travel from place to place and by writing, or printing or otherwise, publicly profess to cure or treat diseases, injuries or deformities, shall be held and deemed to be an itinerant physician and subject to the taxes, fines and penalties prescribed in this section.

15. If any person shall practice or attempt to practice medicine, surgery or obstetrics in this State without having complied with the provision of section nine (9) of this chapter, except as therein provided, he shall be guilty of a misdemeanor and fined for every such offense not less than fifty nor more than five hundred dollars, or imprisoned in the county jail not less than one month nor more than twelve months, or to be punished by both such fine and imprisonment at the discretion of the court. And if any person shall file or attempt to file as his own, the diploma or certificate of another, or shall willfully swear falsely to any question which may be propounded to him on his examination, as herein provided for, or to any affidavit herein required to be made or filed by him, he shall, upon conviction thereof, be confined in the penitentiary not less than one nor more than three years, or imprisoned in the county jail not less than six nor more than twelve months, and fined not less than one hundred nor more than five hundred dollars, at the discretion of the court.

16. The secretary of the State board of health shall receive a salary to be fixed by the board, but not to exceed the sum of five hundred dollars; he shall also receive his traveling and other necessary expenses incurred in the performance of his official duties within the limits of this State, not to exceed, however, one hundred dollars. The other members of said board shall each receive four dollars per day for each day actually and necessarily employed by them in the discharge of the duties of their office. But the whole of the expenses so incurred, the salary of the secretary and the per diem of the members of the board, shall not exceed the sum of fifteen hundred dollars in any one year. The State Board shall audit all bills made out in due form and verified by the member rendering the services, or incurring the expense, or traveling in the performance of the duties of his office. Such bills, when approved by the Governor, shall be paid out of the State treasury.

17. All moneys received by the State board of health, or any of its members, in payment of fees for examination, as well as the special taxes received by the sheriff under the provisions of section fourteen (14) of this chapter, shall be paid into the State treasury within one month after the same are received. And it shall be the duty of the secretary of the State board of health on the first days of January and July in each year, or within five days thereafter, to certify to the auditor all such moneys received by said board or any member thereof, during the preceding six months. It shall also be the duty of the clerk of every county court on the same days in each year, or within five days thereafter, to certify to the auditor all moneys received by the sheriff under this chapter, shown by the receipts filed in his office, as required by section fourteen (14) of this chapter. And any such secretary or clerk who shall fail to comply with the provisions of this section, shall be guilty of a misdemeanor and fined for each offense not less than fifty nor more than two hundred dollars. And if any member of the State board of health shall fail to account for and pay into the treasury, as herein required, any moneys received by him as aforesaid, he shall be guilty of a misdemeanor and fined double the amount of the moneys so received, and which he has failed to pay as aforesaid.

18. The secretary of the State board of health, or any member thereof, shall have power to administer oaths and take and certify affidavits in any matter or thing pertaining to the business of the board, or any of the members thereof.

19. If any person knowingly sell any diseased, corrupted or unwholesome provisions, whether food or drink, without making the same known to the buyer, he shall be confined in jail not more than six months, and fined not exceeding one hundred dollars.

West Virginia. MEDICAL AND SURGICAL REGISTER. *West Virginia.* 1523

20. If any person fraudulently adulterate, for the purpose of sale, anything intended for food or drink, or if he knowingly sell or barter anything intended for food or drink which is not what it is represented to be, or what it is sold for, he shall be confined in jail not more than one year, and fined not exceeding five hundred dollars; and the adulterated or other articles shall be forfeited and destroyed.

21. All acts and parts of acts coming within the purview of this act, and inconsistent therewith, are hereby repealed.

The postoffice address is shown in Display Type, the name of county in which it is located immediately follows, and then the population of the place. The names of Physicians appear under the postoffice name, the first number (the key to which will be found on pages 101 to 120) indicates the college of graduation, and the last number the year in which diploma was granted.

The State of Wisconsin extends from 42 degrees 31 minutes to 46 degrees 58 minutes north latitude, and from 87 degrees to 92 degrees 53 minutes west longitude, and is bounded on the north by Lake Superior, on the northeast by the Northern Peninsula of Michigan, on the east by Green Bay and Lake Michigan, on the south by Illinois, and on the west by Iowa and Minnesota. It comprises an area of 56,040 square miles, or 35,865,600 acres. The principal rivers of Wisconsin are the Mississippi, which flows along the southwestern border; the Wisconsin, Chippewa, St. Croix, Montreal, Menomonee, Peshtigo, Fox, Green and Rock. The climate is cool and pleasant, the mean annual temperature being 45.40 degrees, that of the summer 69.11 degrees, and of the winter 20.84 degrees. The average annual rainfall is about 31 inches.

There are numerous mineral springs in the State.

The Medical Colleges of the State are the Milwaukee Medical College, Milwaukee; the Wisconsin College of Physicians and Surgeons, Milwaukee, and the University of Wisconsin, Madison, with a special science course, antecedent to medicine.

The following table shows increase in population during 50 years:

1840	30,945	1870	1,054,670
1850	305,391	1880	1,315,497
1860	775,881	1890	1,686,880

Rate of mortality in Wisconsin as computed from the United States census of 1890:

Population.	Deaths in 1890.	Rate per 1,000.	White.	Colored.	Rate per 1,000 White.	Rate per 1,000 Colored.
1,686,880	18,662	11.06	18,561	101	11.05	15.76

Total number of deaths from consumption during 1890 was 2,015, which was at the rate of 1.19 per 1,000 of population, or 107.97 per 1,000 of total deaths.

For Nervous and Mental Diseases,
WAUWATOSA, WIS.

THIS well-known private hospital, for the care and cure of nervous and mental diseases, was established in 1885 by Dr. James H. McBride, and successfully conducted by him for 10 years. Upon the recent retirement of Dr. McBride the services of Dr. Richard Dewey were secured on account of his eminence in this especial branch of medical practice.

The Sanitarium possesses unsurpassed advantages in its able and experienced medical staff, its skilled and trained force of nurses and assistants, its ideal situation, (easily accessible and yet retired) in a beautiful and spacious natural park on a hill surrounded by forest trees, with a pure and bracing atmosphere and a charming country region round about.

But the chief advantage here

afforded is the devoted personal care and oversight of each patient with a view to recovery or the utmost benefit that the science of today, joined with a complete equipment, will admit of. The limited number of patients makes this personal care possible, where in a larger hospital it could not be secured.

Medicinal treatment is supplemented by hydro-therapeutics, electro-therapeutics, massage, dietetics and calisthenics, and tennis courts, bowling alley, billiard room as well as other recreations make the diversions and amusements liberal, while walking or driving over this charmingly diversified country is an unending pleasure.

The aim is to make patients feel at once comfortable and at ease. The two well-arranged houses are made homelike, and are free from institution resemblances. They have perfect systems of drainage and plumbing; also steam and hot water heating and electric lighting. The water provided for drinking is from the Nee-ska-ra spring.

LOCATION. At Wauwatosa, in the suburbs of Milwaukee, three miles from the city limits, easily reached by the Chicago, Milwaukee & St. Paul Railway; two and one-half hours ride from Chicago. There are also two street car lines from Milwaukee. The Sanitarium is five minutes' walk from all these lines.

The regular terms cover expense of private room, medical attendance and all special appliances for treatment without extra charge.

Competent special nurses supplied at reasonable rates.

Chicago Office, Venetian Building, 34 Washington Street (opposite Marshall Field's store) room 1113. Dr. Dewey may be seen at the above office Wednesdays from 10 A. M. to 1 P. M., except during July and August.

MEDICAL LAWS OF WISCONSIN.

"Section 1436, R. S. No person practicing physic or surgery, or both, shall have the right to collect in any action in any court, fees or compensation for the performance of any medical or surgical service, or to testify in a professional capacity as a physician or surgeon in any case, unless he shall have received a diploma from some incorporated medical society or college, or shall be a member of the State or some county medical society legally authorized in this State. Provided, that in all criminal actions the court may in its discretion and in the furtherance of justice, receive the testimony of any physician or surgeon without requiring proof of the incorporation of the medical society or college from which he graduated."

"Section 1437a. No person practicing physic or surgery, or both, who is prohibited by section 1436 of the Revised Statutes of Wisconsin, 1878, from testifying in a professional capacity as a physician or surgeon, in any case, shall assume the title of doctor, physician or surgeon, by means of any abbreviation, or by the use of any word or words, letters of the alphabet, of the English or any other language, or any device of whatsoever kind, printed, written or painted, or exhibited in any advertisement, circular, hand-bill, letter or other instrument, nor on any card, sign, door, or place whatsoever; any person violating any of the provisions of this act shall be deemed guilty of a misdemeanor, and shall, on conviction thereof, be punished by a fine of not less than twenty-five dollars nor more than one hundred dollars, or by imprisonment in the county jail not less than ten days nor more than sixty days for each offense."

"Upon complaint made in writing, under oath, before any magistrate or justice of the peace, charging the commission of an offense against the pro-

visions of this act in his county, it shall be the duty of the district attorney to prosecute the offender, and in all such prosecutions the burden of proof shall be upon the defendant to establish his right to use such title under the provisions of this act."

"Any person prohibiting from assuming the title of doctor, physician or surgeon, who shall practice or pretend to practice physic or surgery, or both, shall not be exempt from any, but shall be liable to all, of the legal penalties and liabilities of malpractice; and ignorance shall be no excuse for failing to perform, or for negligently or unskillfully performing or attempting to perform, any of the duties required by law of practicing physicians or surgeons, the provisions of the foregoing act shall not be so construed as to prevent students from practicing under the direction of a qualified preceptor, nor women practicing midwifery, nor veterinary practitioners in their special departments."

The postoffice address is shown in Display Type, the name of county in which it is located immediately follows, and then the population of the place. The names of Physicians appear under the postoffice name, the first number (the key to which will be found on pages 101 to 120) indicates the college of graduation, and the last number the year in which diploma was granted.

Wyoming extends from 41 degrees to 45 degrees north latitude, and from 104 degrees to 111 degrees west longitude, and is bounded on the north by Montana, on the south by Colorado and Utah, on the east by Dakota and Nebraska, and on the west by Montana, Idaho and Utah. It comprises an area of 97,980 square miles, or 62,645,120 acres.

The principal rivers are Big Horn, Green, Laramie, Little Powder, North Fork of Cheyenne, North Fork of Platte, Upper Yellowstone and Wind.

The following table shows increase in population for 20 years:

1870	9,118	1890	60,705
1880	25,789				

Rate of mortality in Wyoming, as computed from the United States census of 1890:

Population.	Deaths in 1890.	Rate per 1,000.	White.	Colored	Rate per 1,000 White.	Rate per 1,000 Colored.
60,705	414	6.82	407	7	6.87	4.89

Total number of deaths from consumption during 1890 was 18, which was at the rate of .30 per 1,000 of population, or 43.48 per 1,000 of total deaths.

some regularly-chartered medical school, said school to have a bona fide existence at the time when said diploma was granted.

2. Every physician, surgeon or obstetrician in this Territory shall file for record with the Registrar of Deeds of the county in which he or she is about to practice his or her profession, or where he or she now practices it, a copy of his or her diploma, at the same time exhibiting the original, or a certificate from the dean of the medical school of which he or she is a graduate, certifying to his or her graduation.

3. Every physician, surgeon or obstetrician, when filing a copy of his or her diploma or certificate of graduation, as required by section two of this act, shall be identified as the person named in the papers about to be filed, by the affidavit of two citizens of the county, or by his or her affidavit, taken before a notary public or commissioner of deeds for this Territory, which affidavit shall be filed in the office of the registrar of deeds.

4. Any person practicing medicine, surgery or obstetrics in this Territory without complying with sections one, two and three of this act shall be guilty of a misdemeanor, and upon conviction shall be punished by a fine of not less than fifty dollars, nor more than five hundred dollars, or by imprisonment in the county jail for a period of not less than thirty days, nor more than six months, or by both fine and imprisonment, for each and every offense. And any person filing or attempting to file as his or her own the diploma or certificate of graduation of another, or a forged affidavit of identification, shall be guilty of a felony, and, upon conviction, shall be subject to such fine and imprisonment in the penitentiary as may be fixed by the court for said offense.

5. It shall be the duty of the police, sheriff or constable to arrest all persons practicing medicine, surgery or obstetrics in this territory who have not complied with the provisions of this act, and the officer making the arrest shall be entitled to one-half of the fine collected.

6. No portion of this act shall apply to any person who, in an emergency, may prescribe or give advice in medicine, surgery or obstetrics, in a section of country where no physician, surgeon or obstetrician resides, or where no physician, surgeon or obstetrician resides within convenient distance, nor to persons prescribing in their own families; nor shall the provisions of this act apply to persons claiming to practice medicine, surgery or obstetrics in any section of the Territory wherein no physician or surgeon, having a diploma or certificate of graduation as aforesaid, now resides or shall hereafter reside.

7. Upon the trial of any person charged with a violation of any of the provisions of this act, it shall be sufficient for the prosecution to show that the defendant has practiced medicine, surgery or obstetrics within the county where the indictment is found, at any time since the passage of this act, and the defendant shall not, after such proof, be entitled to an acquittal until he or she shows by the testimony of some competent witness, upon oath, that the defendant has received a medical education and a genuine diploma from some regularly-chartered medical school: Provided, That the defendant may show such facts by depositions taken in the same manner as depositions are taken in civil cases.

8. That an act entitled "An Act to protect the citizens of Wyoming Territory from empiricism, and to elevate the standing of the medical profession," be and the same is hereby repealed.

9. This act shall take effect and be in force from and after its passage.

CAUTION.

Beware of so-called State Medical Directories, copied from our Medical and Surgical Register by irresponsible persons, and palmed off as original publications. This fraud has been perpetrated in various parts of the country, notwithstanding our efforts to prevent it by prosecution under the copyright law.

To avoid being imposed upon, you should ascertain the standing and responsibility of the publisher before signing an order.

Our friends will confer a favor upon us, as well as the medical profession, by promptly giving notice of any such attempted fraud.

The Medical Department was founded in 1810, and is the oldest of the professional schools of the University. It occupies buildings so near those of the other departments that the medical students may readily take advantage of the University libraries and scientific collections, the numerous University lectures, and the gymnasium.

Terms of Admission. Candidates for matriculation who do not present the diploma of a college, approved high school or preparatory school, must pass an examination in English, Latin, Mathematics and Physics.

Course of Instruction. The methods of instruction in the Medical Department are substantially the same as those prevailing in the other departments of the University. The curriculum is graded to extend through four years, with final examinations at the end of each year.

The class-room exercises are for the most part recitations on assigned lessons in Text books. These are conducted by the Professors, and are supplemented by frequent explanatory and didactic lectures.

Laboratory Instruction is an important feature of the course, systematic work being required of all students in Analytical, Physiological and Clinical Chemistry, Histology, Anatomy, Pharmacy, Pathology and Bacteriology. A new laboratory building has just been erected for Chemistry and Physiology, and the laboratories in the other departments have been enlarged and newly equipped.

Clinical Instruction is conducted at the New Haven Hospital, and at the New Haven Dispensary, which is located on the school grounds. The instruction is personal, the students serving as assistants in the Dispensary during their senior year.

Terms and Vacations. The college year begins on the first Thursday in October and ends at Commencement, the last Wednesday in June. It is thirty-four weeks in length, exclusive of recesses of three weeks at Christmas and one week at Easter.

Fees. Matriculation, paid but once, \$5.00; Tuition, first, second and third years, each, \$140.00; Tuition, fourth year, \$50.00; Graduation, \$30.00.

For announcements, containing further information concerning the curriculum, honors and prizes, copies of the examination papers, etc., apply to

UNIVERSITY OF NEW YORK—Medical Department.

FIFTY-SIXTH YEAR, 1896-97.

SPECIAL ANNOUNCEMENT.

The Session of 1896-97 will begin Wednesday, Sept. 30th, 1896.

Attention is called to the fact that the curriculum has recently been again entirely re-modeled and greatly improved. It now consists of a four-years' graded course, a brief synopsis of which follows:

1ST YEAR.—Lectures and recitations from text-books on Anatomy, Physiology, Histology and Chemistry. Laboratory work in Histology and Chemistry. Dissection. Demonstration to sections in Anatomy.

2D YEAR.—Lectures on Surgical and Regional Anatomy, Experimental Physiology, Experimental Chemistry, Physics and Hygiene, and Materia Medica. Recitations from text-books on Anatomy, Physiology and Chemistry (continued), and on Pathological Anatomy, Practice of Medicine, Surgery, Materia Medica and Obstetrics. Demonstrations on the Manikin. Laboratory work in Pathology, Bacteriology and Materia Medica. Dissection, Demonstrations to advanced sections, and Demonstration-lectures in Anatomy.

3D YEAR.—Lectures on Practice of Medicine. Surgery, Obstetrics, Gynecology, Therapeutics and Pathology, with Autopsies. Recitations on Practice of Medicine, Therapeutics, Obstetrics, Gynecology, and Pathology. Bedside teaching in small classes in the Wards of Bellevue Hospital on Medicine, Surgery and Gynecology. Clinics in Bellevue Hospital and the College Building on Medicine, Surgery and Gynecology.

4TH YEAR.—Clinical, Hospital and Dispensary teaching will be the chief feature of the fourth year, combined with lectures on advanced topics. Special clinics will be given in Ophthalmology, Otology, Laryngology, Orthopædy, Pediatrics, Skin Diseases, Venereal Diseases, Nervous Diseases and Insanity. Also Clinics in General Medicine, Surgery and Gynecology.

NOTE.—There are two remaining years of the original three-years' course. Students coming from other medical colleges of recognized standing will be admitted to either of them, for the last of which examinations are required in such branches only as have already been completed at the time of admission. The curriculum of these two years follows:

2D YEAR.—Lectures on Surgical and Regional Anatomy, Experimental Physiology, Experimental Chemistry, Physics and Hygiene, and Materia Medica. Recitations from text-books on Pathological Anatomy, Practice of Medicine, Surgery, Materia Medica, Obstetrics and Demonstrations on the Manikin. Laboratory work in Pathology; Clinics in Bellevue Hospital and the College Building, on Medicine, Surgery and Gynecology, and Practical Clinical work in Sections in Medicine and Surgery.

3D YEAR.—Lectures on Practice of Medicine, Surgery, Obstetrics, Gynecology, Therapeutics and Pathology, with Autopsies. Bedside teaching in small classes in the Wards of Bellevue Hospital on Medicine, Surgery and Gynecology. Clinics in Bellevue Hospital and the College Building on Medicine, Surgery and Gynecology.

SPECIAL CLINICS.

OPHTHALMOLOGY,
OTOLOGY,

LARYNGOLOGY,
ORTHOPÆDY,

PEDIATRICS,
SKIN DISEASES,

VENEREAL DISEASES,
NERVOUS DISEASES.

Examinations are held at the close of each year.

The marks received for proficiency in practical work in the Laboratory, Dissecting Room, etc., are added to the final examination marks in each corresponding subject.

This College is a member of the National Association of Medical Colleges.

THE REGULAR WINTER COURSE begins October 1st; the PRELIMINARY FALL COURSE begins September 1st.

It has always been the aim of the Faculty of this School to provide for students opportunities for obtaining a practical medical education. We endeavor to have our laboratory and clinical work keep pace with the didactic instruction.

The wards of our **New Maryland General Hospital** are filled with patients suffering from nearly every form of disease and injury, furnishing a large clinic of medical and surgical cases.

Our **New Maryland Lying-In Hospital**, immediately adjacent, presents unrivaled advantages for the study of practical obstetrics.

Each student is required to complete the course in Anatomical, Histological, Physiological, Pathological and Chemical Laboratories.

Each candidate for graduation is required to pursue a course of practical hospital instruction. Our entire Senior Class receives practical instruction in the hospital each week.

There is abundant clinical work in Gynecology, Obstetrics, Surgery, Medicine, Eye, Ear, Nose, Throat and Chest, Diseases of Children, and Nervous and Mental Diseases.

The Baltimore Medical College Dispensary furnishes an out-door clinic of 25,000 patients annually.

Our **New College Building**, a comfortable and spacious structure, is one of the most complete in the United States. It is located on Madison Street, corner Linden Avenue; is five stories high and contains a lecture hall and amphitheatre each with a seating capacity for 500 students, a large Dispensary with Drug Room, and spacious and thoroughly equipped Anatomical, Histological, Physiological, Pathological and Chemical Laboratories. Terms reasonable. For further particulars send for Catalogue, and address

COURSE OF INSTRUCTION AND FACILITIES.

Four years of graded instruction are required of candidates presenting themselves for the degree of M. D. The instruction consists in didactic lectures amply supplemented by clinical teaching at the bedside and in the laboratories and dispensaries.

In addition to the members of the Faculty named above, there is a large corps of experienced instructors who assist the professors in practical work in the laboratories or in bedside work at the hospitals and dispensaries. Every candidate for the degree is personally taught, by dividing the class into small sections, in Clinical Medicine and Physical Diagnosis, Obstetrics and Gynecology, Major and Minor Surgery and Bandaging, Orthopedic Surgery, Diseases of Children, Ophthalmology, Neurology, Otology, Dermatology and Laryngology. Ample clinical material is afforded by the Jefferson College Hospital, in which no less than 300 patients are treated daily, and by the Philadelphia and other Hospitals.

Laboratory instruction is given in Medical Chemistry, Pharmacy, Physiology, Clinical Microscopy, Anatomy, and Histology, and in Operative Obstetrics, Surgery, Pathology and Hygiene.

Daily instruction in the practical branches, given in the Hospital of the College, is a special feature of the course in the third and fourth year, and is without extra charge.

The Annual Announcement, giving full particulars, will be sent on application to

J. W. HOLLAND, M. D., Dean of the Faculty,

At the College Building, Tenth St., bet. Walnut and Chestnut, Philadelphia.

HAHNEMANN**MEDICAL COLLEGE AND HOSPITAL.**

CHARTERED 1848.

**Broad Street above Race,
PHILADELPHIA.**

Medical Students, in selecting their Alma Mater, should

REMEMBER:

1st. That the Hahnemann Medical College of Philadelphia is the oldest Homœopathic Medical College in the world, and her alumni, 2,267 in number, are found in every state in the Union and in the Faculty of every Homœopathic Medical College in the country.

2d. That its College and Hospital buildings are new and modern in construction, and complete in every detail.

3d. That they are located in the heart of the city, within two squares of the City Hall, and convenient to all places of interest and public resort.

4th. That it has a museum of Anatomical and Pathological specimens scarcely excelled in size and variety in this country.

5th. That it has a library of 10,000 volumes to which students have free access.

6th. That its Laboratories—Anatomical, Physiological, Histological, Chemical, etc., etc.—are fully equipped in every detail.

7th. That it has a corps of experienced Professors, Lecturers and Demonstrators. 28 in number.

8th. That its teachings are broad and liberal, embracing everything essential to a thoroughly educated modern physician.

9th. That it has a large Hospital in which over 25,000 patients are treated annually, and that senior students have six months' experience in the several departments of its Dispensary, in which they examine, diagnose and treat hundreds of cases, embracing all classes of disease and accident, under the direction of the Professors and Instructors.

10th. That in the Obstetrical Department every senior student is drilled in the use of Obstetrical instruments, performs all the operations, and attends cases of confinement.

11th. That it requires a good preliminary education and a four years course of lectures.

12th. That Philadelphia is renowned as the medical center of the country; is a delightful place of residence, and offers a home for the student full of attractions and interesting historical associations.

13th. That announcements may be had by addressing PEMBERTON DUDLEY, M. D., Dean, or CHARLES MOHR, M. D., Registrar, Hahnemann Medical College, Philadelphia, Pa.

The Regular Session begins on the third Tuesday of September, and continues six months. During this session, in addition to four Didactic Lectures, two or three hours are daily allowed to Clinical Instruction. Attendance upon four regular courses of lectures is requisite for graduation. A four years' graded course is provided. The Spring Session embraces recitations, clinical lectures and exercises and didactic lectures on special subjects; the session begins the second Tuesday in April, and continues ten weeks. Commencing with April, 1895, all students matriculating at this college are required to attend four years' college courses as a prerequisite to graduation.

The laboratories are open during the collegiate year for instruction in chemistry, microscopy, practical demonstrations in medical and surgical pathology, and lessons in normal histology. Special importance attaches to "the superior clinical advantages possessed by this College." Large clinics. New buildings.

For particulars, see annual announcement and catalogue, for which address the Secretary of Faculty,

PROF. T. M. T. MCKENNAN, 810 Penn Avenue.

Business correspondence should be addressed to **Prof. W. J. Asdale, Secretary Board of Trustees, 5523 Ellsworth Ave., Pittsburgh, Pa.**

Three years, strictly graded course. To be increased to four years with session of 1897-98. Instruction by lectures, recitations, laboratory work, clinics, and practical demonstrations and operations.

HOSPITAL ADVANTAGES.—Albany Hospital, St. Peter's Hospital, Child's Hospital, Albany Hospital for Incurables, Albany County Hospital, Eye and Ear Infirmary, and their Dispensaries, are available for clinical purposes, to students.

FEES AND EXPENSES.

Matriculation, \$5; Lectures, \$100 per session; Dissection, \$10 material free; Laboratory Courses in Chemistry, Histology, and in Pathological Anatomy, each, \$10; Graduation Fee, \$25.

The Regular Fall Session opens on the last Tuesday of September, and continues seven months.

VARIOUS PRIZES

are awarded at the close of the term to meritorious students. Appointments to positions upon the house staff of the Albany Hospital and St. Peter's Hospital and Ellis Hospital, Schenectady, are made by competitive examination, open to the graduating class of the college.

COMMENCEMENT occurs latter part of April. The annual meeting of the Alumni Association is held on that day.

JOHN M. DODSON, A. M., M. D., Professor of Physiology.

The curriculum of this school of medicine requires a proper preliminary education, and four years of study in college, devoted to laboratory, didactic, and clinical instruction, to recitations and to manual training in the use of instruments and appliances.

Instruction is given in two capacious, well lighted edifices. The new building contains five large laboratories in which are conducted the practical laboratory courses in Anatomy, Physiology and Histology, Chemistry, Materia Medica, Pathology and Bacteriology.

The old building is devoted to instruction by clinics, didactic lectures, and by numerous important practical courses in manual training in manipulations and in the use of the instruments employed in medicine, surgery, obstetrics and the specialties.

Manual training in all departments of medicine is a special feature of the instruction in this college. Systematic recitations, conducted in five commodious recitation rooms, are regarded as a most important means of teaching.

With over seventy professors and instructors and with ample room and appliances, this school is able to furnish its classes with the most approved systematic education in medicine.

Physicians and medical students are invited to visit the laboratories and to inspect the educational appliances of this school.

For further information and for announcements, apply to the College Clerk or to the Secretary,

J. H. ETHERIDGE, M. D., 31 Washington St., CHICAGO.

OF CHICAGO.

OPPOSITE COOK COUNTY HOSPITAL.

Four years graded course. The course of the first two years is largely laboratory work; of the last two years largely clinical. The equipment of the College includes six-story laboratory and a hospital of 125 beds, in which all members of the senior class are assigned to duty and get practical clinical experience. Students who have completed the course preparatory to medicine in recognized colleges, and graduates in Dentistry, Pharmacy or Veterinary Medicine are admitted with advanced standing. Nine annual scholarships of the value of \$100 each are awarded to students in the College. The course offers exceptional advantages to earnest students.

Northwestern University Medical School.

(CHICAGO MEDICAL COLLEGE.)

Nos. 2421 to 2431 Dearborn St., CHICAGO, ILL.

N. S. DAVIS, M. D., LL. D., Dean.

LABORATORY BUILDING AND DAVIS HALL.

THIS MEDICAL SCHOOL was the pioneer in insisting upon the following points in medical education: The enforcement of a standard of preliminary education, the adoption of longer annual courses, grading of the curriculum.

The regular course now includes four years of eight months each. Admission is in accordance with conditions detailed in the circulars of the college. Students who have taken courses especially antecedent to the study equivalent to that mentioned in the catalogue as arranged for advanced standing, are admitted to the second year.

The buildings now occupied by the school were erected in 1893 for its use, and are arranged accordingly.

The equipment and teaching in the laboratories is modern. The professors of chemistry and physiology are practical men, very successful teachers, and their entire time is paid for by the college.

The curriculum is arranged in four entirely separate and distinct consecutive annual courses. The instruction is by didactic and clinical lectures, recitations, demonstrations and laboratory and clinical work.

The clinical material which includes the number and variety of cases which only very large cities can supply, is drawn from the South Side Dispensary, located in the college building, and Mercy, St. Luke's and Wesley Hospitals. Over 20,000 cases were treated in the dispensary last year. The method in which this very large clinical material is used is original with this college, and it secures each individual student a better opportunity to learn disease, through actual personal observation of cases, than exists in any other college in this country. Students in the first year do not attend clinics; those of the other three years comprise the clinical class, and are divided into two divisions—hospital and dispensary. The hospital division is subdivided, one section attending Mercy Hospital and the "College clinics," the other attending St. Luke's Hospital and the "College clinics." In the dispensary, patients are assigned to its several departments, medical, surgical, et al, and small groups of students are assigned for daily work in these departments, the assignment so arranged that each group works six consecutive weeks in each department, and in the course of the year in all departments. The "College clinics" are conducted by the professors of the several departments, and fourteen are given each week. Dispensary and college clinic hours are 10 to 12 A. M. and 2 to 4 P. M.

FEES. The matriculation fee of five dollars is paid once. The annual fee is one hundred dollars. The laboratory fee is ten dollars. A deposit of five dollars is required in the laboratories. If no breakage occurs this fee is returned.

- XVII. MALARIA. Blood, Urine, Skin, and Sputum.
- XVIII. MALE NEURASTHENIA. The Urine.
- XIX. CONSUMPTION OF THE BOWELS.
- XX. REVIEW. Special reference to diagnosis of diseases mistaken for others: Uterine Disease for Consumption. Male Neurasthenia for Consumption and Rheumatism. Heart Diseases for Consumption. Fatty and Fibroid Degenerations for Consumption, Rheumatism, etc.

It is not expected that the physician will master the above during the course, but that he may be taught how to use his microscope daily in practice. He becomes his own teacher at the end of the course. The teaching is made as practical as possible, and the diseases noted are usually covered. The detection of the predisposing states of tuberculosis, rheumatism, thrombosis, apoplexy, Bright's and heart diseases (to name no more), with the removal of their causes; and the diagnosis of the conditions existing when predisposing states are passed, with the positive management of such that a certain percentage are permanently ameliorated, are amongst the duties of the physician of the present day.

For Book List: Microscopy, General Medicine, Gynecology, Laryngology, Electro-Therapy, address as above.

The course of instruction consists of the regular winter course, commencing October 1st and a Practitioners' course in the spring.

A four years' course is required for graduation, the last year of which may be spent as house officer of a hospital acceptable to the faculty.

The dissecting rooms and laboratories for chemistry, histology, pathology and bacteriology are fully equipped, and the courses in them are compulsory.

Systematic clinical instruction is given in diseases of the eye, ear, throat, gynecology, neurology and venereal diseases at the college clinic.

Two hours a day clinical lectures are given in the amphitheatre of the Cincinnati Hospital.

. Bedside instruction is given in the same institution to small classes of students.

In addition to the lectures and laboratory work at the college, recitations are held in the various branches.

PRACTITIONERS' COURSE.

A four week's course for practitioners is given every spring, commencing April 15th, and for which a certificate of attendance is given.

The course covers the ground usual in post graduate schools.

Mr. and Mrs Alexander McDonald have presented and thoroughly equipped a beautiful building in memory of their daughter, Mrs. Laura McDonald-Stallo.

Coincident with the gift of the Laura Memorial College, a union has been effected with the Woman's Medical College of Cincinnati.

By this arrangement there will be but one Medical College for Women in the State. The advantages of this arrangement will be manifest in the concentration of clinical, laboratory and practical anatomical teaching. The Presbyterian Hospital, immediately adjoining the college, has, during the past summer been materially altered and improved, so that the clinical advantages which the students of this college have heretofore enjoyed will be greatly increased.

The corps of instructors has been enlarged by accessions from the faculty of the Woman's Medical College of Cincinnati, until every department is amply provided for. The Trustees, the Hospital Board and the Faculty feel assured that every want of the students will be supplied.

A graded course of four years session began October 1st, 1895.

For catalogue and other information, address,

JOHN M. WITHROW, M. D., Dean,
526 W. Seventh St., CINCINNATI, OHIO.

MEDICAL DEPARTMENT

— OF —

Western Reserve University

FORMERLY CLEVELAND MEDICAL COLLEGE.

CLEVELAND, - OHIO.

THIS College completed its fifty-second annual session May 20, 1896. As "Cleveland Medical College," Medical Department of Western Reserve College, it graduated its first class in 1844. In 1884, by reason of the change of Western Reserve College to Western Reserve University, "Cleveland Medical College" became the Medical Department of the University. The course of instruction extends through four years, of eight months each. The FIRST TWO years are largely devoted to laboratory work in Chemistry, Physiology including Histology, Anatomy, Pathology including Bacteriology and Pharmacology. The LAST TWO years are given to Medicine and Surgery with their divisions and specialties, Therapeutics, Obstetrics, Hygiene, Hospital and Dispensary Practice. Clinical opportunities are provided by the Lakeside, Charity and City Hospitals, and the "Maternity." Obstetric experience and confidence is obtained by suitable cases in the Maternity and in the out-dispensary service. Ample accommodations are provided in the college building and laboratories, and in the hospitals, for students to pursue both general and special courses.

THE CLEVELAND College of Physicians and Surgeons,

Medical Department of the Ohio Wesleyan University.

Exclusively a Fall and Winter School.

CLEVELAND, O.

A four years' course of graded instruction with sessions of eight months each is now required. The school is amply provided with extensive and thoroughly equipped laboratories, under the management of experienced teachers. Cleveland General Hospital, a new and commodious structure, is entirely under the Medical Management of the Faculty, offering to the advanced student the opportunity of visiting the wards and personally examining cases at the bed side. The senior class spend their entire time at the Hospital, all lectures of that year being delivered in the Hospital Amphitheater. The regular session of 1896-7 will open September 16, 1896.

Every candidate for admission, not holding a degree of arts or science, must pass a written examination on entrance to this School, in the following subjects: 1. English. 2. Latin. 3. Physics. 4. Chemistry. 5. Either French or German. 6. Algebra, Plain Geometry or Botany. The admission examinations for the coming year will be held July 1st, at Boston, Quincy, Andover, Groton, Southborough, Worcester, Mass., Exeter, Concord, N. H., New York, Albany, Buffalo, Philadelphia, Washington, Cleveland, Cincinnati, Chicago, St. Louis, Minneapolis, Denver, San Francisco, Portland, Oregon, Bonn, Germany and Tokyo, Japan; on September 28, at Boston, only.

Instruction is given by lectures, recitations, clinical teaching and practical exercises, distributed throughout the academic year. In the subjects of Anatomy, Histology, Chemistry and Pathological Anatomy, laboratory work is largely substituted for, or added to, the usual methods of instruction. The year begins October 1, 1896, and ends on the last Wednesday in June, 1897, and is divided into two equal terms.

Students are divided into four classes, according to their time of study and proficiency, and during their last year will receive largely increased opportunities for instruction in the special branches mentioned. Students who began their professional studies elsewhere may be admitted to advanced standing; but all persons who apply for admission to the advanced classes must pass an examination in the branches already pursued by the class to which they seek admission.

Beginning with the academic year 1892-93, the required course of study in this school was made a graded course covering four years. The degree of Doctor of Medicine cum laude will be given to candidates who have pursued a complete four years' course, and obtained an average of 75 per cent. upon all the examinations of this course.

ORDER OF STUDIES.

FOR THE FIRST YEAR.—Anatomy, Physiology, Histology and Embryology, Hygiene, Bacteriology and Physiological Chemistry.

FOR THE SECOND YEAR.—Anatomy, Pathology and Pathological Anatomy, Clinical Chemistry, Materia Medica and Therapeutics, Theory and Practice, Clinical Medicine, Surgery and Clinical Surgery.

FOR THE THIRD YEAR.—Theory and Practice, Clinical Medicine, Surgery, Clinical Surgery, Obstetrics, Pediatrics, Dermatology, Neurology, Gynæcology, and Mental Diseases.

FOR THE FOURTH YEAR.—Required Studies: Clinical Medicine, Clinical Surgery, Clinical Microscopy, Genito-Urinary Surgery, Ovarian Tumors, Mental Diseases, Ophthalmology, Otolaryngology, Orthopædics, Legal Medicine and Syphilis. Elective Studies: Ophthalmology, Otolaryngology, Orthopædics, Gynæcology, Dermatology, Neurology, Bacteriology, Physiology, Chemistry, Hygiene, Operative Surgery, Operative Obstetrics.

REQUIREMENTS FOR A DEGREE.—Every candidate must be twenty-one years of age, must have studied medicine four full years, have spent at least one continuous year at this school, have passed a written examination upon all the prescribed studies of the course taken.

FEES.—Matriculation, \$5; for the first three years, \$200; for the fourth year, \$100; for one term alone, \$120; for Graduation, \$30. For Graduates' Course the fee for one year is \$200; for one term, \$120; and for single courses, such fees as are specified in the Catalogue. Payment in advance, or, if a bond is filed, at the end of the term. Students in regular standing in any one department of Harvard University are admitted free to the lectures, recitations and examinations of other departments.

MARY K. BAYNUM, M.D.	MARY S. HORNBY, M.D.	HARRIET A. REEVES.

ITS LEADING CHARACTERISTICS.

1. It is established in Boston, an educa-
tional center.
2. It forms a part of Boston University, an
institution of the most progressive and liberal
character.
3. It has a large and able teaching Faculty.
4. It requires evidence of sufficient prelim-
inary education to fit the student for the study
of medicine before admission to the school.
5. It provides a carefully graded minimum
course of four years before graduation.
6. It was the first school in this country to
provide a course covering *four years* for those
who wish to pursue their studies with special
thoroughness and with suitable leisure for col-
lateral reading, and to obtain professional ex-
perience under the direction of the Faculty.
7. It demands the actual attendance at a
medical school four full years, as a condition
to graduation.
8. It requires that every student shall pass
a successful examination in all the studies of
each year, before promotion to those of the
next.
9. It has restored the degrees of Bachelor
of Medicine, and Bachelor of Surgery, to be
attained by students in the *four years' course*,

who at the end of the third year pass a wor-
thy examination.

10. It confers no honorary or *ad eundem* de-
grees. Its diplomas are obtained only for
work actually done in the school.

11. It admits, both as teachers and students,
men and women on equal terms and condi-
tions, to the exercises of the school.

12. It gives, in addition to the various
branches of medicine usually taught, a thor-
ough knowledge of the homœopathic system.

13. It secures for its students in its extensive
clinics, not only instruction illustrated by ob-
servation, but it requires them to have the
personal care of medical, surgical and obstet-
ric cases, under the supervision of the Fac-
ulty, previous to graduation.

14. It has a new and extensive fire-proof
building, and has five large laboratories for
practical work by the entire class; a new li-
brary and reading room in which the students
will have access to the medical journals and
works of reference; and it has constructed
for its building a new and improved system
heating and ventilation.

15. Its diplomas are honored at home and
abroad, and its graduates occupy respected
professional and public positions.

Dr. Julius Fehr's COMPOUND TALCUM. (See adv., p. 1367.)

BELLEVUE HOSPITAL • • MEDICAL COLLEGE CITY OF NEW YORK.

The Regular Session

Begins about the end of September and closes about the end of March. During this session, in addition to the regular didactic lectures, two or three hours are daily allotted to clinical instruction. Attendance upon at least four regular courses of lectures will be required for graduation after 1896-'97.

The Spring Session

Consists of recitations, clinical lectures and exercises. This session begins about the end of March and continues until the middle of June. During this session, daily recitations in all the departments are held by a corps of Examiners appointed by the Faculty.

The Carnegie Laboratory

Is open during the collegiate year, for instruction in microscopical examinations of urine, practical demonstrations in medical and surgical pathology, and lessons in normal histology and in pathology, including bacteriology.

For the annual "Circular of Information," giving requirements for graduation and other particulars, address

THE COLLEGIATE YEAR consists of one term, which begins in September of each year and continues six months.

AN OBLIGATORY three-years graded course has been established. The curriculum is graded to extend through that period, with examinations at the end of each year.

SPECIAL ADVANTAGES. The special advantages which this school offers to college students intending studying medicine may be summed up as follows: Its long, thorough and graded course of study; its comparatively low fees; its ample dispensary and hospital facilities, and its new and large college building.

THE ANNUAL ANNOUNCEMENT, giving full particulars, will be sent on application.

JAMES P. JACKSON, M. D., Dean.

L. A. BERGER, M. D., Secretary.

ALFRED A. WOODHULL, M. D., (U. S. A.), Denver, Preventive Medicine.

RICHARD W. CORWIN, M. D., Pueblo, Surgery.

The course of instruction is graded, and covers four years of nine months each.

Instruction during the first year is given in Boulder, and during the second, third and fourth years in Denver, on account of clinical advantages.

The Term Begins Early in September, and Ends the Latter Part of May.

The advantages of the climate of Colorado, especially for pulmonary and malarial affections, are unquestioned. Many young men and women who have been compelled to leave school, both in the East and South, on account of the development of pulmonary consumption, have come to Colorado and been able to pursue their studies without interruption.

The University is well Equipped with Facilities for Laboratory Work.

CLINICAL ADVANTAGES.

Clinical instruction, illustrating the didactic, is a special feature of the second, third and fourth year courses in this school. The hospitals of Denver, to which medical students have access, accommodate about five hundred patients. The Arapahoe County Hospital has two hundred and fifty beds, and its capacity is steadily increasing from year to year. At this hospital four clinical lectures are delivered each week to the medical students in the city.

The Dispensary of the College will be open daily, except Sunday, and at least six clinical lectures will be given at the college each week throughout the entire nine months.

TUITION:—For residents of Colorado, \$35.00; for non-residents, \$45.00; Graduation fee, \$10.00

COURSE OF INSTRUCTION—The college year begins early in September and ends in April—extending over a period of seven months. The course is graded and embraces an attendance upon four full lecture courses. Instruction is given by Lectures, Recitations, Clinical and Laboratory Work. A large College Dispensary and three Hospitals—the Arapahoe County, St. Luke's and St. Joseph's—furnish abundant clinical material.

REQUIREMENTS FOR ADMISSION—Candidates for Admission must be of good moral character and must have a good English Education. A diploma from a creditable high school, normal school, college, or a first-class teacher's certificate from a county or state school board of examiners will be taken as evidence of the necessary preliminary education. If such credentials are not presented, the candidate will be required to pass an examination in English Composition, Arithmetic, Elementary Physics, History, Geography and Elementary Latin. The examinations will be held during the first two days of the session, but students are allowed until Christmas to make up any deficiency in Physics or Latin.

FEES—Matriculation Fee (Annually), \$5 00; Tuition Fee, \$75 00; Graduation Fee (not returnable), \$25.00; Demonstrator's Ticket (including material), \$10.00; Chemical Laboratory Ticket, \$10.00; Pathological and Physiological Laboratory fees, extra. No tuition fee is required from students who have paid for and attended three full courses of lectures in this College. Such students are admitted to the fourth course upon the payment of the matriculation fee only. For Catalogue or any further information, address

 H. R. HYNSON, Ph. G., Lecturer on Pharmacy.

The Regular Winter Session begins October 1st and ends April 1st annually, and is one of three sessions required for graduation.

The student of medicine is given unsurpassed clinical advantages at this school.

THE NEW COLLEGE BUILDING.—The Faculty takes pride in announcing that the New College Building is complete in all its appointments.

The New City Hospital is a magnificent structure, with a capacity of 300 beds, situated in the center of the city. Its position enables it to command most of the accident cases occurring in Baltimore. The Faculty have the exclusive medical control of it. A systematic course of bedside instruction is given in the wards.

The Maryland Lying-in Asylum, established by this school in 1874, was the pioneer institution of its kind in this State. It furnishes each student with bedside instruction and experience.

The Maryland Woman's Hospital has been merged into and forms an important part of the New Baltimore City Hospital.

The New Colored Hospital.—The building formerly known as the Woman's Hospital has been torn down, and a handsome new structure is now open for the reception of patients. It is the first hospital which was ever established in the State of Maryland exclusively for the colored race.

Bay View, the Almshouse of Baltimore, which contains 1,200 beds, has been thrown open for the clinical instruction of students of this school. A resident Physician for the Medical and Surgical Departments is annually appointed at this institution, with a salary of \$500 and board from the College of Physicians and Surgeons. An Assistant Resident Physician is also appointed from this school.

The City Hospital Dispensary, organized over twenty years ago, has become wide-spread in its influence, and adds largely to the clinical attractions of the school.

Frequent post-mortem examinations are made before the whole class, and the medico-legal bearings of the cases are fully discussed.

Attendance upon the demonstrations in the Physiological, Chemical and Pathological Laboratories is required of every student.

The Anatomical rooms are spacious and airy, and dissecting material abundant.

A Resident Physician and three Assistant Resident Physicians for the City Hospital, a Resident Physician for the Maternite Hospital and one for the Colored Hospital are appointed annually from the graduating class as awards of merit. A limited number of students will be admitted as residents in the Hospital.

All students who enter this school hereafter will be subject to a preliminary examination.

CLINICAL INSTRUCTORS.

T. S. WATERS, D.D.S., Chief Clinical Instructor, Resident.
CORYDON PALMER, D.D.S., Ohio.
E. PARMLY BROWN, D.D.S., N. Y.

The Baltimore College of Dental Surgery, the first and for many years the only Dental School, offers facilities for the study of Dentistry proper, such as age and experience only can give. Its immense museum, complete apparatus, large and well-arranged building, and carefully-studied curriculum give to its students great advantages and opportunities, both theoretical and practical, while its age gives its Diploma a dignity far out-ranking all other Colleges—a Diploma honorably represented in all civilized countries, and held by the most distinguished members of the Dental Profession.

The fact that Dentistry must be practically taught is fully recognized, the College Infirmary, a most complete, large and handsome hall, being daily filled with clean and respectable patients, of a class nearly equal to those of the average dentist. This Infirmary is open all the year, students paying an entrance fee which is deducted from those of the regular succeeding course.

The session begins October 1, closing in March. A large corps of Demonstrators, always present, put in actual practice the teachings of all lecturers on Dentistry—leaving nothing undemonstrated. All methods are fully taught, all appliances and apparatus used; the making of instruments and the most elaborate gold and continuous-gum work, and all the cases arising in ordinary practice, with many which are rarely seen, carefully demonstrated.

Commencing October 1, 1895, this College admitted women as students, subject to the same requirements as men.

The College has formed an alliance with the College of Physicians and Surgeons, by which its students are privileged to attend all lectures and clinics. The patients of this medical school numbered last year over 40,000.

Graduates of the Baltimore College of Dental Surgery are required to attend but one session at the College of Physicians and Surgeons prior to presenting themselves as candidates for the degree of M.D. (See Catalogue). In accordance with the resolution adopted by the National Association of Dental Faculties in the city of New York on the 4th of August, 1884, and which went into effect for the session of 1885 and 1886, the qualifications for entering the Junior Class are a preliminary examination in the ordinary English branches.

Terms of Graduation.—Attendance on three Winter Courses of lectures in this College. As equivalent to one of these we accept one course in any reputable Dental College. Graduates in Medicine can enter the Junior Class.

Beneficiary Students.—Each State Dental Society is privileged to send one Beneficiary Student to this College at one-half the regular tuition fees. This has been for some years an established feature of this College.

Fees.—Matriculation (paid once only), \$5.00. Tuition fees, \$100.00. Diploma fee, \$30.00. Dissecting fee, \$10.00.

Students corresponding with the Dean will please be careful to give full address, and direct their letters to

UNIVERSITY OF MICHIGAN.

HOMŒOPATHIC MEDICAL COLLEGE.

LECTURES COMMENCE OCTOBER 1, EACH YEAR.

Special Advantages.—The *special* advantages which this department offers to medical students may be summed up as follows: *Its long thorough and graded course of study; its low fees and inexpensive cost of living; its magnificent and thoroughly equipped laboratories; its new, commodious and well-equipped hospital; its corps of salaried professors and instructors; its association with the greatest University on this continent*, whose diploma is known, honored and recognized the world over, and which gives its possessor superior standing in, and commends him to the people of, any community.

The Homœopathic Hospital.—The new Homœopathic Hospital is provided with a corps of trained nurses, large, airy and well-lighted wards for male and female patients, private rooms for special patients, rooms for antiseptic surgery, dispensary, etc., all under the immediate direction of the Faculty.

Anatomical Laboratory.—The anatomical laboratory is admirably adapted for its purpose; the rooms are large, well-lighted and well-ventilated.

Chemical Laboratory.—The chemical laboratory provides thorough instruction and suitable appliances for the practical study of all branches of medical chemistry.

Physiological Laboratory.—The apartments provided for the physiological laboratory offer excellent facilities for practical work, whether of class instruction or original investigation.

Histological Laboratory.—The histological laboratory is well supplied with microscopes, microscopical accessories, microtomes, imbedding apparatus, and other instruments used in histological work.

Pathological Laboratory.—The work in this laboratory comprises an elementary and an advanced course. It includes all ordinary practical work in connection with the study of the processes of disease as seen with the microscope.

Hygienic Laboratory.—There is a large room devoted to bacteriological work, which contains all the improved apparatus employed by Koch. All the known pathogenic and the most important non-pathogenic germs are studied.

The Gymnasium.—The gymnasium is 152 feet long by 124 feet wide, while the administration rooms have an area of 82 feet by 32 feet, with a wing for the ladies' gymnasium, in addition. It is open to students of all departments.

MEN AND WOMEN ADMITTED ON EQUAL TERMS.

Matriculation examination requirements are in accordance with those of the Association of American Medical Colleges. Special courses in Latin, Algebra and Physics are provided by the College for such students as are conditional in these branches.

PLAN OF INSTRUCTION.

The plan of instruction comprises a four years' graded course, consisting of didactic and clinical lectures, conferences, laboratory practice, etc., upon the essential branches of the Science of Medicine. Students may be permitted to attend the lectures in the various departments, but are only admitted to examination upon studies of their respective years. In addition to the lectures there are recitations, clinical teaching and practical work in the laboratory and the dissecting room. Lectures and recitations of great value, upon special subjects, have also been arranged. The fourth year is devoted largely to clinical work.

CLINICAL ADVANTAGES.

The City Hospital is only two blocks distant from the College. The Union General Hospital, the College Hospital, with its out-patient department, is in the same block with the College. The North End Dispensary and Hospital, and the Massachusetts Lying-in Hospital are fostered in a great measure by the management of the College. The New England Eye and Ear Hospital and several other institutions afford special clinics for our students.

REQUIREMENTS FOR GRADUATION.

Candidates must be at least 21 years of age. They must have attended four annual courses of lectures of not less than six months' duration each at this College; or, have attended three such courses at some other recognized medical college or colleges and one at this; or, having attended two such courses at some other recognized medical college or colleges, and two at this; or, have attended one such course at some other recognized medical college, and three at this; or, having been admitted to advanced standing in this College, by having pursued a prescribed course or courses of study in other recognized colleges and universities, as set forth by the Association of American Medical Colleges, shall be required to have attended at this College only such courses of lectures as shall be necessary to complete the curriculum of four annual courses of lectures. Candidates must have dissected all parts of the cadaver. They must have attended six cases of obstetrics.

The Seventeenth regular session will commence on the third Wednesday in September, 1896, and continue until the third Wednesday in June, 1897. For catalogues or other information, address, REV. DAVID SHURTLEFF, Registrar, Office, 517 Shawmut Ave., BOSTON, Mass.

Dr. Julius Fehr's HYGIENIC DERMAL POWDER. (See adv., p. 1367.)

THE Hering Medical College.

"If our school ever gives up the strict Inductive method of Hahnemann, we are lost, and deserve only to be mentioned as a caricature in the history of medicine."—Constantine Hering.

THAT the strict inductive method of Hahnemann, based on the principles of The Organon, the single remedy in the potentized form and the minimum dose, is no longer taught from the college rostrum, nor practiced by the majority of our school, is acknowledged by all.

In its place a spurious science, disfigured by crude dosage, by unwise expedients, by paltry palliatives, and totally unworthy of the name HOMŒOPATHIC, holds almost undisputed sway.

Against such teaching, and against such practice the **HERING MEDICAL COLLEGE** is a protest and an appeal; a cry to halt and an effort to reform.

It differs, therefore, from all other existing colleges, both in regard to the principles taught and in the methods of teaching.

It advances Materia Medica and Therapeutics to their proper place of eminence, and insists that **PURE** Homœopathy is all that is necessary or desirable in the cure of the sick. No important field or specialty of modern medicine is neglected, but they are taught by men who are Homœopaths first, and Specialists second.

The Faculty being zealously devoted to a central truth, are consequently in harmony, and this will insure an orderly, systematic and harmonious presentation of the whole broad subject of the science and art of Therapeutics, which, philosophically considered, is what Homœopathy is.

Students who have a leaning towards Homœopathy are earnestly requested to consider the above facts, and if they conclude to study Homœopathy at all, are urged to study it in its purity, and not the hybrid of Allopathy and Eclecticism generally taught under that name.

Clinical Medicine,	STEPHEN T. BARNETT.
Clinical Medicine,	ADAM T. FINCH.

The course of study extends over three full sessions of nine months each and is graded as follows:

- I. Anatomy, Histology, Bacteriology, Chemistry.
- II. Physiology, Pathology, Materia Medica, Obstetrics.
- III. Surgery, Gynecology, Practice, Hygiene, Medical Jurisprudence.

The utmost attention is paid to securing accurate and thorough instruction. Students are subjected to daily oral and periodical written examination in the didactic courses, and the practical work in laboratories, dissecting hall and dispensary is done under minute individual supervision and is tested by repeated examinations of the most practical character. The Tuition Fees for the three years amount to \$120.00, \$100.00, and \$60.00. The other necessary expenses amount to from \$25.00 to \$35.00 a month.

The University of Virginia is situated in a beautiful and healthful region, at the junction of the Chesapeake and Ohio with the Southern Railway. Its course of study and methods of instruction may be more fully learned by applying for a catalogue to

New York Post-Graduate Medical School and Hospital,

Second Avenue and 20th St., NEW YORK CITY.

Incorporated by Special Act of the Legislature of the State of New York. For Practitioners of Medicine Exclusively.

FIFTEENTH YEAR, SESSIONS OF 1896-97.

The Post-Graduate Medical School and Hospital is now permanently located in its new building, which has been erected to fill all the modern requirements for a hospital and medical school. It is an eight-story fire-proof structure, containing accommodations for 175 patients. The babies' wards, formerly in the adjacent building, are now an integral part of the institution under its own roof. The classes in the school have been so large in the last few years, and the facilities for attending them so cramped, that this building has been erected, not only for the classes of practitioners, but also that more patients might be received, in order to form a great teaching hospital. This has now been accomplished, and every opportunity, both in the dispensary and hospital, is afforded in all departments of medicine and surgery. The great major operations are performed in the amphitheatre of the institution, which is fitted up in the very best manner to secure best surgical results. Pathological and Histological Laboratories are a part of the school.

This school was founded by members of the Post-Graduate Faculty of the University of the City of New York, and was the first institution in the United States to present a systematic course of clinical instruction for graduates in medicine. All the Lectures are Clinical. It is a place of instruction, in which the practitioner, by actually handling the cases under the guidance of the Professors and Instructors, may learn the use of instruments for examination and treatment and observe the effects of remedies.

Its facilities are unrivaled. Each hospital to which the teachers are attached forms a part of the field of instruction. The general schedule is so arranged that there is no conflict in the hours of attendance of the professors. The clinics begin at 9 a.m., and continue till 9 p.m. each day. The CLINICAL SOCIETY of the School meets twice a month on Saturday evenings. Professor Augustus Caille gives practical instruction in INTUBATION of the LARYNX to classes organized in this School, and only here.

THE VANDERBILT UNIVERSITY, Medical Department, NASHVILLE, TENN.

The building shown in the above cut is modern in every respect. All departments are fully equipped with the most modern appliances. The course of study is graded, and separate instruction is given to each of the three classes—junior, middle and senior. Three years of attendance is demanded and a fourth year is advised. Thorough, practical work in all the laboratories is compulsory. In the lecture rooms the students are instructed didactically, clinically and by recitations. Twelve clinics every week. Subdivisions of the middle and senior classes are given practical experience in the out-door clinic of the College. Hospital facilities abundant.

HOSPITAL AND COLLEGE CLINICS.

Clinical Lectures will be delivered at the City Hospital and at the Free College Dispensary regularly during the session, in which a great variety of diseases not usually met with by the general practitioner, will be brought before the class for treatment or operation.

Our Free College Clinic and out-door service will enable us to offer, at our College Amphitheatre, an abundance of practical clinical observation to the students, and our College surgical work is probably surpassed by but few schools in the country. Session will begin October 5th, 1896. For particulars, or catalogue,

MEDICAL DEPARTMENT

Fort Worth University

FORT WORTH, TEXAS.

The Medical Department was organized under the University charter in July, 1894. The first annual session of 1894-95 has been a phenomenally prosperous one. The trustees, faculty and advisory board are gratified and encouraged by the endorsement of the profession throughout the state, by the ample supply of clinical material, the large number of capable students and the prospect of a largely increased attendance for the coming session.

The situation of Fort Worth has proved to be such as to meet the needs of a growing medical school. Its position as a geographical, railway, educational and surgical center, its rapidly increasing population, its large number of eminent physicians and surgeons, from which the faculty is drawn, its private and public hospitals, homes and dispensaries, and the immense field tributary to it, all combine in a peculiar degree to render it a great medical center.

COLLEGE OF MEDICINE OF

The University of Southern California.

Twelfth Annual Lecture Course begins
October, 1896.

INSTRUCTION consists of graded course through four terms of eight months each, October to June, of Clinical and Didactic lectures and recitations, with practical work in laboratories and dispensary, treatment of out-patients, careful training in performance of Surgical operations under direction of clinical and hospital staff.

THE COLLEGE DISPENSARY furnishes over six thousand cases annually in every department of Surgery and Medicine. The County Hospital has 150 beds, and furnishes all the clinical material which can be utilized.

The Chemical, Anatomical, Histological, and Bacteriological Laboratories, the Surgical and Gynæcological Operating Rooms are equipped with all the best modern appliances.

REQUIREMENTS for ADMISSION. The Student must pass a matriculation examination unless he is a graduate of some University, College, Normal or High School, or Academy or holds first grade teacher's certificate. Students who come from any recognized Medical College will be allowed the corresponding time on Credentials, or on examinations as Faculty may decide.

Many Students not in vigorous health are availing themselves of the fine climate of Southern California to pursue their studies in Los Angeles.

For further particulars address the Secretary,

W. L. WADE, M. D.,

421 South Hill St., LOS ANGELES, CALIFORNIA.

FOR MEN AND WOMEN.

Tufts College Medical School,

BOSTON, MASS.

Commences its annual course of lectures on the last Wednesday in September of each year, and continues eight months.

The curriculum consists of a four years' graded course of didactic and clinical lectures, recitations and demonstrations, supplemented by practical work in the laboratories and dissecting room, upon the various branches of medical science.

The large hospitals and dispensaries of Boston furnish an abundance of clinical material, and students are required to diagnose and prescribe for patients at the College Dispensary, under the supervision of the College Board of Instruction.

For further particulars or catalogues, address the Secretary,

Prof. CHARLES PAINE THAYER, M.D.,
74 Boylston Street, BOSTON, MASS.

Dr. Taylor's Medical Council, Phila. For Practical Physicians.
Subscription only \$1. (See adv.)

Dunham Medical College, CHICAGO.

370 South Wood St., opposite Cook County Hospital.

The Homœopathy of Hahnemann as the Organon Teaches it.

A Model New Building. Standard Equipment. Abundant Light. Perfect Heat and Ventilation. Large Laboratories. A Complete Medical Library Open to Students Every Day. The Richest Surgical Clinics.

THE DUNHAM MEDICAL COLLEGE teaches the Homœopathy of Samuel Hahnemann without perversion or admixture with the crude dosage and make-shift methods of so-called "Modern Homœopathy." It adheres to the single remedy in the potentized form, and the minimum dose. It has no apologies to offer for what it regards as the essential principles of Homœopathy. It makes a specialty of the *Organon* of Hahnemann and the *Homœopathic Materia Medica*.

Students who desire to study Homœopathy at all, are urged to study the art of healing as Hahnemann taught it, and not as some of his professed followers have perverted it.

INSTRUCTION.

The course of instruction in this College is a graded one, and extends over three years. It is so arranged that the student receives thorough training in the fundamental branches of medicine and their application in practice. It comprises didactic and clinical lectures and demonstrations; practical courses in histological, physiological, pathological and bacteriological laboratories; dissections during the three years, and anatomical demonstrations by special demonstrators; recitations and bed-side observations under the supervision of the various teachers.

The FACULTY of this college will in future, as it has done in the past, endeavor to uphold its high standard. In the teaching, the scientific and practical will be harmoniously blended. The unusual hospital and laboratory facilities enjoyed by our students will make the school attractive to those who wish to prepare themselves by obtaining a solid foundation for their future life's work.

THE NEW ORLEANS ... POLYCLINIC.

A Post-Graduate School for Physicians. Ninth year. [Session begins in 1896. 1st term, March 2, ends April 31; 2d term, April 15, ends June 1.

The instruction is practical and clinical. Besides lectures and demonstrations in the new Polyclinic building, especially built and arranged for these purposes, the wards and out-door clinics of Charity Hospital afford a vast material for selection.

Every effort is made to facilitate the student, and opportunities are generously afforded them for assisting and conducting operations. Whether special or general subjects are taken, each student is brought in close contact with the patient and with the teachers of all subjects. The Eye, Ear, Nose and Throat Hospital is each year regularly arranged for the study of these branches. No post-graduate school in America offers so varied and such a multitude of cases and opportunities for studying them as the New Orleans Polyclinic.

Kansas City Homœopathic Medical College,

KANSAS CITY, MO.

INCORPORATED 1889.

The Annual Sessions begin about September 15th, and continue Six Months.

THE OFFICERS OF THE FACULTY ARE AS FOLLOWS:

WILLIAM DAVIS FOSTER, M.D., DEAN, Surgery, 420 West 11th Street.
A. E. NEUMEISTER, M.D., TREASURER, Gynæcology, 1214 Main Street.
W. L. RAY, M.D., REGISTRAR, 1214 Main Street.

COURSE OF INSTRUCTION AND FACILITIES.

Three years of graded instruction are required of candidates presenting themselves for the degree of M. D., but the voluntary fourth year course which is now offered is strongly recommended. The instruction consists in didactic lectures, amply supplemented by clinical teaching at the bedside and in the laboratories and dispensaries.

Every candidate for the degree is personally taught in Clinical Medicine and Physical Diagnosis, Obstetrics and Gynæcology, Major and Minor Surgery and Bandaging, Orthopædic Surgery, Diseases of Children, Ophthalmology, Neurology, Otology, Dermatology and Laryngology. Ample clinical material is afforded by the hospitals and college clinics.

Laboratory instruction is given in Medical Chemistry, Pharmacy, Physiology, Clinical Microscopy, Anatomy and Histology, and in Operative Obstetrics, Surgery, Pathology, Hygiene and Bacteriology.

Daily instruction in the practical branches, given in the clinics of the college, is a special feature of the course in the second and third years, and is without an extra charge.

The annual announcement, giving full particulars, will be sent on application to

W. L. RAY, M.D., Registrar, 1214 Main Street.

"The Science of Anæsthesia Revolutionized."

HAYES IMPROVED PROCESS OF ANÆSTHESIA for Painless Operative Dentistry, Extraction of Teeth and all other Operations in Surgery—with pure Narcotized Air, regulated and adapted to the capacity and kindly tolerance of the patients in all the various stages of anæsthesia. THE BEST AND SAFEST known to the scientific world; rather enticing to take; no nausea or other unpleasant after results. More than 200,000 persons have taken this without a single death. Such a record of safety has never before been made by any anæsthetic or agency in this country, or in the world. Leading men in both the medical and dental professions pronounce Hayes' Process of Anæsthesia with Pure Narcotized Air, for painless operative dentistry, surgery, a grand achievement in the world of science.
